No I do not. Never heard of this individual or the incident in general. Since he is not a FS employee, this incident was not logged into SHIPS.

We may want to investigate the cattle guard in question to be sure there was nothing structural that may have contributed to the incident (i.e. anything that may make the FS liable). From the email below, I can't determine if the person was riding a bicycle or a motorcycle. I can see a motorcycle going across the cattle guard (if it were in good condition), but not a bicycle. I will be happy to investigate along with your folks. Let me know.

Good morning,

(b)(6) I have been assigned the above-mentioned claim against the government, filed by attorney F. Michael Hart on behalf of his client (b)(6). According to the claimant, on July 18, 2014, he was riding his bike on a FS road in El Porvenir Campground on the Santa Fe NF. As he crossed a cattle guard, his bike wheel fell into a space on the cattle guard and he flipped over the front of the bike. He allegedly sustained head, face, and neck injuries. In addition, he allegedly sustained a cervical strain and bruises. I have requested additional information regarding the incident (exact location) and supporting documentation regarding his injuries.

If you have any information regarding this incident, please forward it to my attention to the address listed below or email me at charlenerider@fs.fed.us. Is there a point of contact for the El Porvenir Campground? I will need a good point of contact in the event I need to gather some information regarding that area.

Please let me know if you have any questions.

Good afternoon all,

I'm hoping I can get some help on this claim. I have attached pictures of the cattle guard that the claimant alleges caused his injuries. He was riding a bicycle on a FS road that he believes is approved for bicycle travel when he attempted to cross the cattle guard and his wheel got stuck and he flipped over his bicycle and sustained injuries.

I do not know what road he was on (I can only assume that he was on FR 261) and the exact location of the cattle guard in question. He just states that the cattle guard was in the El Porvenir Campground area. Is there someone you can put me in contact with that will be able to go out to the campground and look for the cattle guard and provide additional information regarding that area?

If you have any questions, please do not hesitate to contact me at the number listed below or email me.

Thank you,
Charlene

This is how he told me. I understood what he was talking about when he said between each section. There are I believe three sections of cattle guard found at this location. The three sections make up the entire length of cattle guard that stretches perpendicular across the road. [redacted] was describing the gap between each of these sections were too wide, And not butted up against the other one. However, if you were to visit the site the cattle guard sections cannot be butted up against the other section because the two end sections of cattle guard are bolted up to the A-frame that directs traffic to go between the A-frame and over the cattle guard. Good afternoon [redacted]

[redacted] gave me your contact info to get some information regarding the El Porvenir Campground area. I am working on a claim for personal injuries filed by an attorney on behalf of his client [redacted] [redacted] alleges that he was riding his bicycle on a Forest Road in the El Porvenir Campground area on the afternoon of July 18, 2014, when his wheel fell into a space on a cattle guard as he crossed it. He flipped over his bicycle and sustained injuries to his head, face, and neck. I have attached the pictures the claimant sent of the cattle guard.

If you could assist with the following for now, I would greatly appreciate it:

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road?
- Who maintains the road and what is the maintenance level of the road?
- Is the Forest Road designated as a bicycle trail?

Please let me know if you need additional information.

I have never heard of any other incidents with this cattle guard and no there is no bicycle trails nearby. Someone may be able to ride their bicycle up the beaver creek trail, but you can only go so far up the trail with a bicycle because the trail can get rough and leads to the wilderness where mechanical vehicles are not allowed.

Charlene, fees are required for camping and picnicking at \$8 per vehicle. If vehicle is parked inside the campground, that individual is required to pay the fee. The El Porvenir Trailhead is located prior to the campground in close proximity, there is not a fee required to park and use the trailhead. Hope this answers your question.

Subject: RE: El Porvenir Campground Info

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road? The cattle guard is on the boundary of the campground itself and has a gate with it that we use to shut the campground during the winter months. Cattle guard located on FR261.
- Who maintains the road and what is the maintenance level of the road? Forest Service maintains FR261, level of road is a 1 in INFRA.
- Is the Forest Road designated as a bicycle trail? The forest road is not designated as a bicycle trail.

(b)(6)

Good afternoon (b)(6)

(b)(6) gave me your contact info to get some information regarding the El Porvenir Campground area. I am working on a claim for personal injuries filed by an attorney on behalf of his client (b)(6) alleges that he was riding his bicycle on a Forest Road in the El Porvenir Campground area on the afternoon of July 18, 2014, when his wheel fell into a space on a cattle guard as he crossed it. He flipped over his bicycle and sustained injuries to his head, face, and neck. I have attached the pictures the claimant sent of the cattle guard.

If you could assist with the following for now, I would greatly appreciate it:

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road?
- Who maintains the road and what is the maintenance level of the road?
- Is the Forest Road designated as a bicycle trail?

Please let me know if you need additional information.

Thank you,
Charlene

Good morning,

I have received some information from [REDACTED] regarding the El Porvenir Campground cattle guard, and I believe some of the information came from you; however, I need to know the following, if you can help:

- Who maintains the cattle guard at the El Porvenir Campground (State or FS)?
- Are there any type of warning signs posted for the cattle guard? If so, is it possible to get photos of the signs?

If the FS is responsible for the maintenance of the cattle guard:

- Is the cattle guard free of structural defects?
- When was the last inspection done? (Maintenance records would help)
- What regulations cover the maintenance of cattle guards?

Please let me know if you have any questions.

Thank you,

A detailed engineering report would be great. The claimant has stated that the cattle guard shouldn't have been the way it is...the gaps were too wide between the cattle guard sections. I can't find anything in the FS regulations that addresses cattle guards (installation, maintenance, inspections etc.). What guidelines do we follow?

Well, there's not much else I can say, but let me do this. I'll go out tomorrow morning and do a detailed engineering report for the lawyers. I'll measure it up completely, photograph it, and measure its location with respect to some of the other features at the site. The photographs will include approach photographs from each direction so that the attorneys can see what the plaintiff saw.

(b)(6)

If that's OK, I'll get it done tomorrow and I should be able to get it to you Friday morning. Again, if anyone wants to go with me to look at the site, they're welcome to go along.

Can you please be more specific on the condition of the cattle guard? What exactly does "seems OK" mean? I'm trying to write up the report and I'm sure the OGC attorney will want a better description.

More information. I looked at your E-mail again and here are the answers:

- Who maintains the cattle guard at the El Porvenir Campground (State or FS)? The Forest Service maintains the cattle guard. It belongs to the Forest Service.
- Are there any type of warning signs posted for the cattle guard? If so, is it possible to get photos of the signs? There are no warning signs, but there are delineators. In the attached photo you can see the back of the delineator paddles. If you need better pictures, I'll get them.

If the FS is responsible for the maintenance of the cattle guard:

- Is the cattle guard free of structural defects? The cattle guard seems OK. There's not much else to say about it.
- When was the last inspection done? (Maintenance records would help) We don't inspect the cattle guards we just clean them out of they need work. According to the database, I did a condition survey on the road in May 2012. The database does not show any unusual maintenance requirements for the cattle guard. Frankly, I don't remember doing the condition survey, but I must have, because I'm in charge of the database and I wouldn't have put the inspection into the database if I hadn't done it.
- What regulations cover the maintenance of cattle guards? I couldn't find any information in the Forest Service Manual about maintaining cattleguards.

Finally, I need to say that the information on the length of this road has not been very good and we've changed it several times in the database. One of our GIS layers shows the state highway as ending at the campground, but that isn't correct. The forest road starts at the end of state maintenance, and that's almost a mile from the campground.

Subject: Cattle guard at El Porvenir

Charlene,

I went out to El Porvenir to look at the cattle guard that is subject of a recent claim against the government. Sorry it took so long, but I was given bad information about the cattle guard's location. There are two cattle guards on the road to the campground, one is at the end of the state highway and the other is at the beginning of the campground. The state highway does not end at the campground, but rather ends around a mile before the campground. Anyway, the cattle guard in question, according to the photo from the claim that I saw, is the one in the campground, not the one at the end of the state highway.

The cattle guard belongs to the Forest Service. There is an inholding near the road and the road may cross the private property, but we have an easement for the road and the cattle guard is ours.

Although the cattle guard is not new, it is a standard manufactured cattle guard. When I saw it on Monday, the cattle guard was in good repair and has been adequately maintained. There isn't much else to say about it. It looks OK. I must say, though, that there are no cattle guard warning signs on either side of the cattle guard. For your information, this is what the Forest Service sign manual says about installing cattle guard signs:

3B.2.6 CATTLE GUARD, XX FT, XX MILES, OR AHEAD (FW3-6a) Sign

Based on engineering judgment, a CATTLE GUARD XX FT, XX MILES, or AHEAD (FW3-6a) sign may be used in advance of a cattle guard that is not visible for a sufficient distance for a road user to respond appropriately. Cattle guard steel grates may present unique problems for motorcycles, snowmobiles, and bicycles. Evaluate the cattle guard approach from both directions. Depending on sight distance, the signs may be needed on one or both approach legs.

(b)(6) If you have questions about this, please give me a call. If anyone wants to go out and take a look at the site, let me know and I'll be glad to take them out. It takes around two hours to get there from Santa Fe.

I'll go out and take a look at it this morning. INFRA shows the cattleguard at MP 0.00 and the comments say that the Forest Service road "begins at the cattleguard." The real questions, I believe, is the location of the forest boundary. While there are fences and sign posts out there, the boundary location may not be obvious in a cursory inspection. This may be a question for Leslie.

Caring for the land and serving people

I'm not very sure what the date was however one morning I drove into the El Porvenir Campground where I was going to pick up the trash and other campground duties. I first drove up to the Camp Host site and begun my routine check-up with the Camp Hosts. I began to talk to the hosts to see how things were going within the campground and the two Camp Hosts (b)(6) informed me that I should go talk with a gentleman at one of the camping sites. The hosts had said that an older gentleman was riding a bicycle and had a tumble.

(b)(6) I then went over to the camp site to see what had occurred to this gentleman. The man (last name of (b)(6) came walking up to me and began to converse with me what had happened. He started by saying good morning. Then he told me that he was riding a bicycle the evening before with I believe his grand kids. They road their bicycles down the El Porvenir road heading out of the campground a little ways. On their return to the campground (b)(6) said that as he crossed the cattle guard just a few hundred feet from the campground entrance fee area, His bicycle front tire went between the cattle guard (the joint where the two cattle guard grates come together) and he went right over his bicycle handles and onto the ground. (b)(6)

He told me that after he fell off the bicycle he took care of himself a bit then latter decided to go to the hospital. After he left the hospital he returned to his camping site either that night or the next morning. The next morning when I arrived he was a little slow to get off of his chair and had a bruise on his cheek. As he told me about his fall he was complaining of a sore neck.

Also as he told me about his fall he pointed out to me which cattle guard it was and explained that the cattle guard should not have been like it was and said that someone should fix it. I took it that he was ok because he was back at his campsite camping again and said to him to take care of himself and to be safe because there can be many hazards out in the forest. I left to continue on my duties throughout the rest of the campgrounds.

Cattle Guard at El Porvenir Campground

Santa Fe National Forest

(b)(6)

This is a report about the cattle guard at the entrance of El Porvenir Campground on the Santa Fe National Forest. I prepared the report at the request of the Albuquerque Service Center for the attorneys at the Office of General Counsel. I visited the site on October 8, 2015, and wrote the report on October 8 and 9, 2015. Please note that I am not a draftsman and the diagrams are sketches and are not to scale. The dimensions on the sketches, however, are accurate. I took the photographs with an Apple iPad.

The cattle guard

The cattle guard is at the entrance to the campground on a dirt road. At one time the road was paved, and there are patches of asphalt on the road. But the asphalt has disintegrated and so the road is no longer paved.

The top grids on the cattle guard appear to have been built according to the New Mexico Department of Transportation standard drawings. The structural steel shapes—I-beam, C-beam, and tubular section—are the same as in the standard drawings and the dimensions are close to the standards. The cattle guard, however, has 3 I-beams and the standard plans call for 4 I-beams.

I can't tell if the precast concrete foundation for the grids follows the standard New Mexico DOT plans, but the foundation is more than adequate to support the grids. In the New Mexico DOT standard drawings, the separate foundation sections have "key" sections that allow the foundation sections to be correctly fit together and bolted together. If the foundations were made to the standards, and I could not tell if they were, then the sections were not bolted together. There is a small gap between the foundation sections, approximately half of the gap between the grid sections. The standard plans call for 2 different foundation section types: end sections and intermediate sections. This cattle guard appears to have been built from 3 intermediate sections rather than 2 end sections and 1 intermediate section.

The cattle guard is a 3-section cattle guard, each section 7 feet long in the direction of the width of the road. The cattle guard with the concrete foundation is 8'-4 1/2" in the direction of travel along the road. The grids are 7 feet along the width of the road and 6'-11" in the direction of travel.

There are two gaps between the grids. The right hand gap as you enter the campground starts at 2 inches and widens to 2 1/4 inches at the campground end. The left hand gap is a constant 2 1/4 inches from end to end. To help you visualize the size of the gap, I recommend that you get a ruler and draw width of the gap on a piece of paper. The cattle guard is not perpendicular to the road, but at a slight angle. The ends of the gaps at the campground end are slightly to the left of the ends of the gaps at the other end. I had no way to measure the angle, but it is obvious to the eye.

Warning signs

There are no "cattle guard ahead" signs at the cattle guard. There are four OM-3 object markers in place. The object markers were manufactured in 1990. New reflective material may have been placed over the markers.

Summary

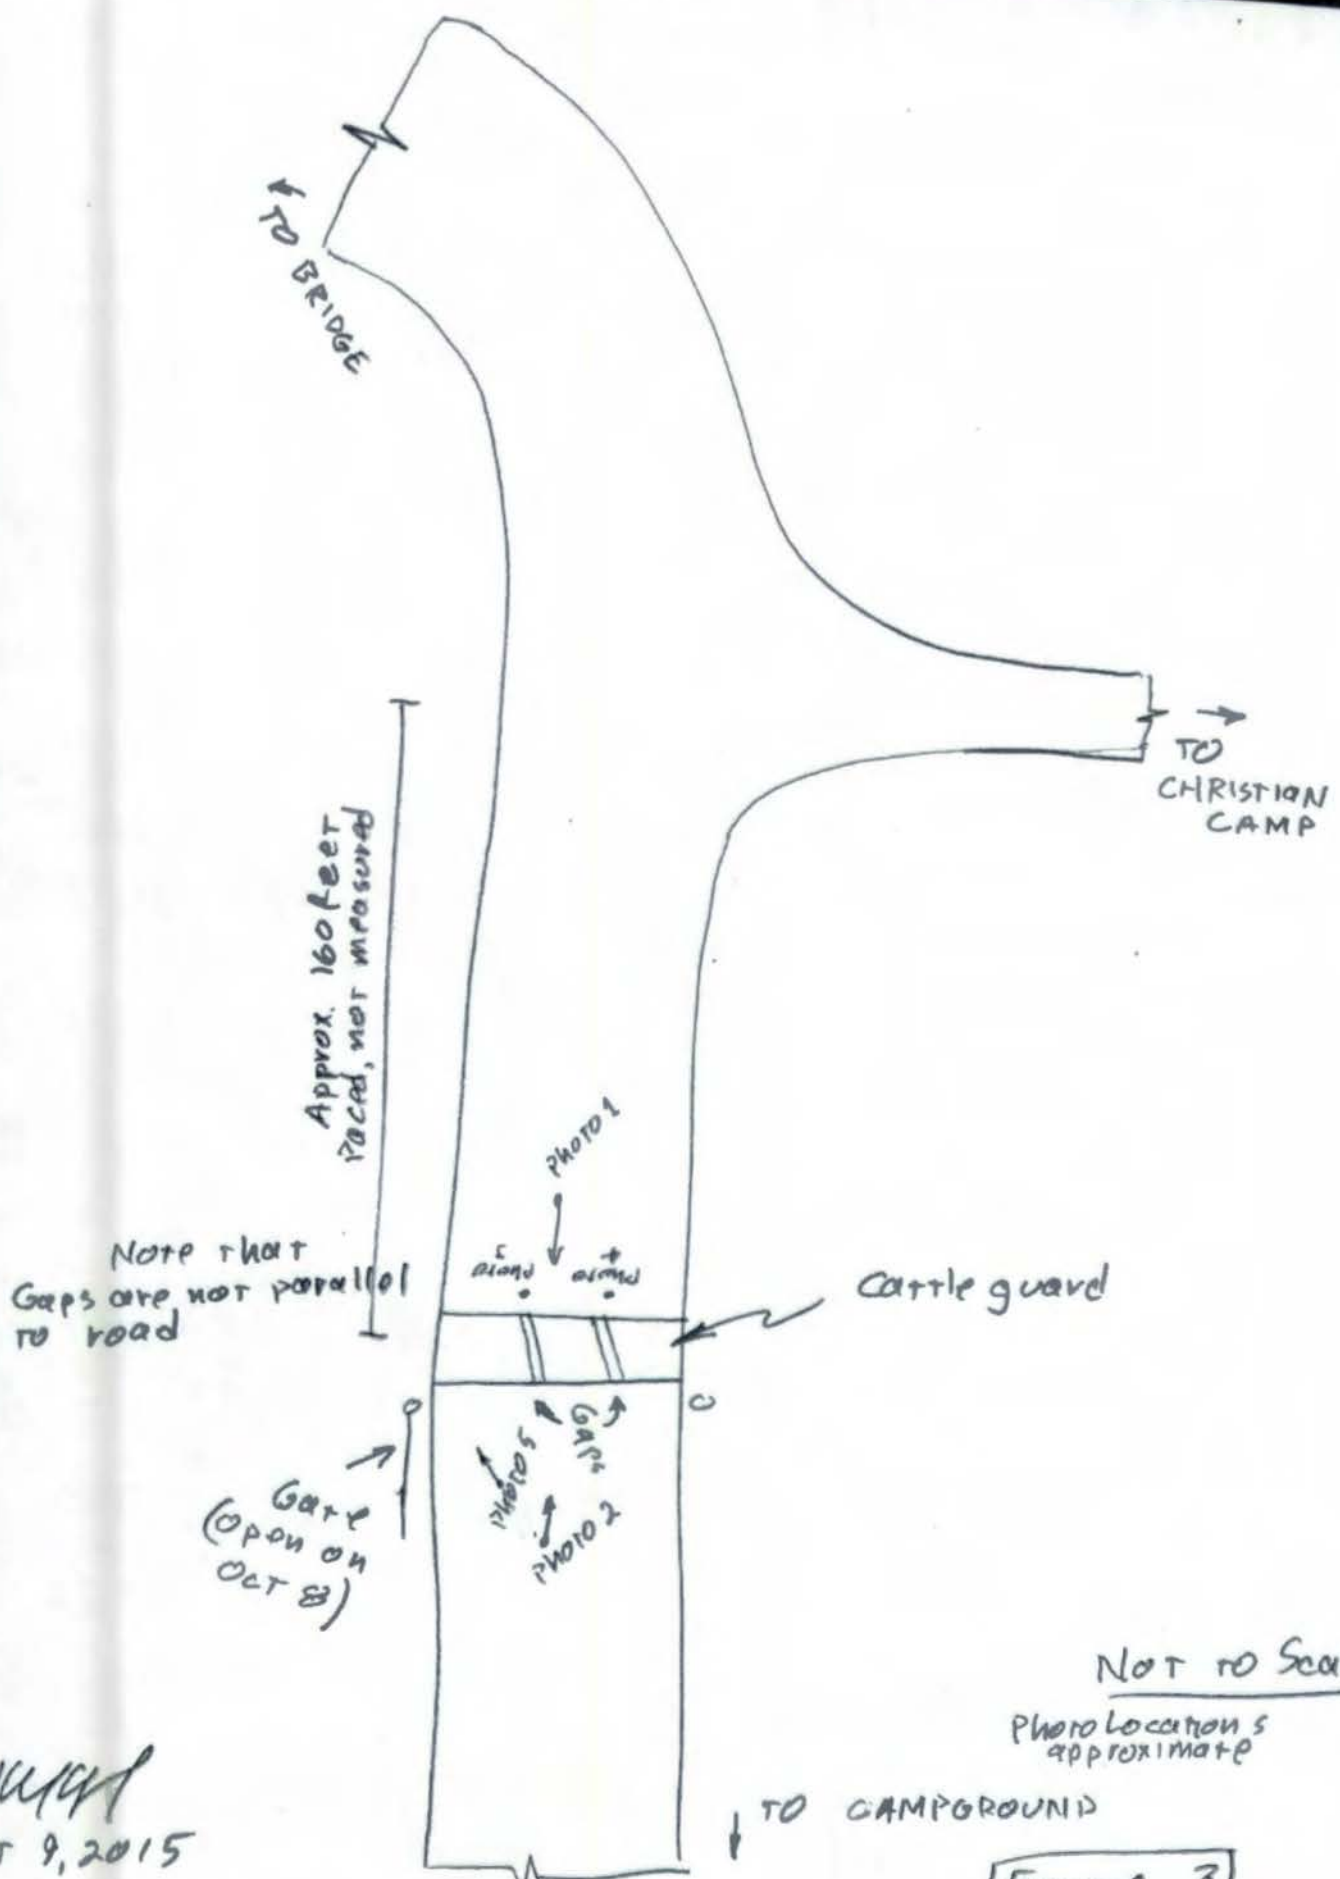

I believe that the cattle guard has not been maintained in 10 or 15 years, possibly since it was installed. I don't know when it was installed and we have no records, but the 1990 date on the object markers might be a good indication of the installation date. It is possible that the New Mexico DOT installed the cattle guard believing that it was at the end of the state road, but there's no way to tell. The cattle guard is on our road and it is not at the end of a state road. The state highway ends slightly less than a mile before the campground. It is interesting to note, however, when I visited the site on October 8, New Mexico DOT workers were patching potholes on our portion of the paved road, even though there's a sign reading "end of state maintenance" at the end of the state road. There may be some confusion about who owns the road.

Title 28. Judiciary and Judicial Procedure (Refs & Annos)

Part IV. Jurisdiction and Venue (Refs & Annos)

Chapter 85. District Courts; Jurisdiction (Refs & Annos)

28 U.S.C.A. § 1346

§ 1346. United States as defendant

Effective: January 4, 2011

Currentness

(a) The district courts shall have original jurisdiction, concurrent with the United States Court of Federal Claims, of:

(1) Any civil action against the United States for the recovery of any internal-revenue tax alleged to have been erroneously or illegally assessed or collected, or any penalty claimed to have been collected without authority or any sum alleged to have been excessive or in any manner wrongfully collected under the internal-revenue laws;

(2) Any other civil action or claim against the United States, not exceeding \$10,000 in amount, founded either upon the Constitution, or any Act of Congress, or any regulation of an executive department, or upon any express or implied contract with the United States, or for liquidated or unliquidated damages in cases not sounding in tort, except that the district courts shall not have jurisdiction of any civil action or claim against the United States founded upon any express or implied contract with the United States or for liquidated or unliquidated damages in cases not sounding in tort which are subject to sections 7104(b)(1) and 7107(a)(1) of title 41. For the purpose of this paragraph, an express or implied contract with the Army and Air Force Exchange Service, Navy Exchanges, Marine Corps Exchanges, Coast Guard Exchanges, or Exchange Councils of the National Aeronautics and Space Administration shall be considered an express or implied contract with the United States.

(b)(1) Subject to the provisions of chapter 171 of this title, the district courts, together with the United States District Court for the District of the Canal Zone and the District Court of the Virgin Islands, shall have exclusive jurisdiction of civil actions on claims against the United States, for money damages, accruing on and after January 1, 1945, for injury or loss of property, or personal injury or death caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant in accordance with the law of the place where the act or omission occurred.

(2) No person convicted of a felony who is incarcerated while awaiting sentencing or while serving a sentence may bring a civil action against the United States or an agency, officer, or employee of the Government, for mental or emotional injury suffered while in custody without a prior showing of physical injury.

(c) The jurisdiction conferred by this section includes jurisdiction of any set-off, counterclaim, or other claim or demand whatever on the part of the United States against any plaintiff commencing an action under this section.

(d) The district courts shall not have jurisdiction under this section of any civil action or claim for a pension.

(e) The district courts shall have original jurisdiction of any civil action against the United States provided in section 6226, 6228(a), 7426, or 7428 (in the case of the United States district court for the District of Columbia) or section 7429 of the Internal Revenue Code of 1986.

(f) The district courts shall have exclusive original jurisdiction of civil actions under section 2409a to quiet title to an estate or interest in real property in which an interest is claimed by the United States.

(g) Subject to the provisions of chapter 179, the district courts of the United States shall have exclusive jurisdiction over any civil action commenced under section 453(2) of title 3, by a covered employee under chapter 5 of such title.

§ 2671. Definitions

Effective: November 13, 2000
Currentness

As used in this chapter and sections 1346(b) and 2401(b) of this title, the term "Federal agency" includes the executive departments, the judicial and legislative branches, the military departments, independent establishments of the United States, and corporations primarily acting as instrumentalities or agencies of the United States, but does not include any contractor with the United States.

"Employee of the government" includes (1) officers or employees of any federal agency, members of the military or naval forces of the United States, members of the National Guard while engaged in training or duty under section 115, 316, 502, 503, 504, or 505 of title 32, and persons acting on behalf of a federal agency in an official capacity, temporarily or permanently in the service of the United States, whether with or without compensation, and (2) any officer or employee of a Federal public defender organization, except when such officer or employee performs professional services in the course of providing representation under section 3006A of title 18.

"Acting within the scope of his office or employment", in the case of a member of the military or naval forces of the United States or a member of the National Guard as defined in section 101(3) of title 32, means acting in line of duty.

28 U.S.C.A. § 2672

§ 2672. Administrative adjustment of claims

Currentness

The head of each Federal agency or his designee, in accordance with regulations prescribed by the Attorney General, may consider, ascertain, adjust, determine, compromise, and settle any claim for money damages against the United States for injury or loss of property or personal injury or death caused by the negligent or wrongful act or omission of any employee of the agency while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant in accordance with the law of the place where the act or omission occurred: *Provided*, That any award, compromise, or settlement in excess of \$25,000 shall be effected only with the prior written approval of the Attorney General or his designee. Notwithstanding the proviso contained in the preceding sentence, any award, compromise, or settlement may be effected without the prior written approval of the Attorney General or his or her designee, to the extent that the Attorney General delegates to the head of the agency the authority to make such award, compromise, or settlement. Such delegations may not exceed the authority delegated by the Attorney General to the United States attorneys to settle claims for money damages against the United States. Each Federal agency may use arbitration, or other alternative means of dispute resolution under the provisions of subchapter IV of chapter 5 of title 5, to settle any tort claim against the United States, to the extent of the agency's authority to award, compromise, or settle such claim without the prior written approval of the Attorney General or his or her designee.

Subject to the provisions of this title relating to civil actions on tort claims against the United States, any such award, compromise, settlement, or determination shall be final and conclusive on all officers of the Government, except when procured by means of fraud.

Any award, compromise, or settlement in an amount of \$2,500 or less made pursuant to this section shall be paid by the head of the Federal agency concerned out of appropriations available to that agency. Payment of any award, compromise, or settlement in an amount in excess of \$2,500 made pursuant to this section or made by the Attorney General in any amount pursuant to section 2677 of this title shall be paid in a manner similar to judgments and compromises in like causes and appropriations or funds available for the payment of such judgments and compromises are hereby made available for the payment of awards, compromises, or settlements under this chapter.

The acceptance by the claimant of any such award, compromise, or settlement shall be final and conclusive on the claimant, and shall constitute a complete release of any claim against the United States and against the employee of the government whose act or omission gave rise to the claim, by reason of the same subject matter.

Currentness

The United States shall be liable, respecting the provisions of this title relating to tort claims, in the same manner and to the same extent as a private individual under like circumstances, but shall not be liable for interest prior to judgment or for punitive damages.

If, however, in any case wherein death was caused, the law of the place where the act or omission complained of occurred provides, or has been construed to provide, for damages only punitive in nature, the United States shall be liable for actual or compensatory damages, measured by the pecuniary injuries resulting from such death to the persons respectively, for whose benefit the action was brought, in lieu thereof.

With respect to any claim under this chapter, the United States shall be entitled to assert any defense based upon judicial or legislative immunity which otherwise would have been available to the employee of the United States whose act or omission gave rise to the claim, as well as any other defenses to which the United States is entitled.

With respect to any claim to which this section applies, the Tennessee Valley Authority shall be entitled to assert any defense which otherwise would have been available to the employee based upon judicial or legislative immunity, which otherwise would have been available to the employee of the Tennessee Valley Authority whose act or omission gave rise to the claim as well as any other defenses to which the Tennessee Valley Authority is entitled under this chapter.

§ 2675. Disposition by federal agency as prerequisite; evidence

Currentness

(a) An action shall not be instituted upon a claim against the United States for money damages for injury or loss of property or personal injury or death caused by the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment, unless the claimant shall have first presented the claim to the appropriate Federal agency and his claim shall have been finally denied by the agency in writing and sent by certified or registered mail. The failure of an agency to make final disposition of a claim within six months after it is filed shall, at the option of the claimant any time thereafter, be deemed a final denial of the claim for purposes of this section. The provisions of this subsection shall not apply to such claims as may be asserted under the Federal Rules of Civil Procedure by third party complaint, cross-claim, or counterclaim.

(b) Action under this section shall not be instituted for any sum in excess of the amount of the claim presented to the federal agency, except where the increased amount is based upon newly discovered evidence not reasonably discoverable at the time of presenting the claim to the federal agency, or upon allegation and proof of intervening facts, relating to the amount of the claim.

(c) Disposition of any claim by the Attorney General or other head of a federal agency shall not be competent evidence of liability or amount of damages.

§ 2679. Exclusiveness of remedy

Currentness

(a) The authority of any federal agency to sue and be sued in its own name shall not be construed to authorize suits against such federal agency on claims which are cognizable under section 1346(b) of this title, and the remedies provided by this title in such cases shall be exclusive.

(b)(1) The remedy against the United States provided by sections 1346(b) and 2672 of this title for injury or loss of property, or personal injury or death arising or resulting from the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment is exclusive of any other civil action or proceeding for money damages by reason of the same subject matter against the employee whose act or omission gave rise to the claim or against the estate of such employee. Any other civil action or proceeding for money damages arising out of or relating to the same subject matter against the employee or the employee's estate is precluded without regard to when the act or omission occurred.

(2) Paragraph (1) does not extend or apply to a civil action against an employee of the Government--

(A) which is brought for a violation of the Constitution of the United States, or

(B) which is brought for a violation of a statute of the United States under which such action against an individual is otherwise authorized.

(c) The Attorney General shall defend any civil action or proceeding brought in any court against any employee of the Government or his estate for any such damage or injury. The employee against whom such civil action or proceeding is brought shall deliver within such time after date of service or knowledge of service as determined by the Attorney General, all process served upon him or an attested true copy thereof to his immediate superior or to whomever was designated by the head of his department to receive such papers and such person shall promptly furnish copies of the pleadings and process therein to the United States attorney for the district embracing the place wherein the proceeding is brought, to the Attorney General, and to the head of his employing Federal agency.

(d)(1) Upon certification by the Attorney General that the defendant employee was acting within the scope of his office or employment at the time of the incident out of which the claim arose, any civil action or proceeding commenced upon such claim in a United States district court shall be deemed an action against the United States under the provisions of this title and all references thereto, and the United States shall be substituted as the party defendant.

(2) Upon certification by the Attorney General that the defendant employee was acting within the scope of his office or employment at the time of the incident out of which the claim arose, any civil action or proceeding commenced upon such claim in a State court shall be removed without bond at any time before trial by the Attorney General to the district court of the United States for the district and division embracing the place in which the action or proceeding is pending. Such action or proceeding shall be deemed to be an action or proceeding brought against the United States under the provisions of this title and all references thereto, and the United States shall be substituted as the party defendant. This certification of the Attorney General shall conclusively establish scope of office or employment for purposes of removal.

(3) In the event that the Attorney General has refused to certify scope of office or employment under this section, the employee may at any time before trial petition the court to find and certify that the employee was acting within the scope of his office or employment. Upon such certification by the court, such action or proceeding shall be deemed to be an action or proceeding brought against the United States under the provisions of this title and all references thereto, and the United States shall be substituted as the party defendant. A copy of the petition shall be served upon the United States in accordance with the provisions of Rule 4(d)(4) of the Federal Rules of Civil Procedure. In the event the petition is filed in a civil action or proceeding pending in a State court, the action or proceeding may be removed without bond by the Attorney General to the district court of the United States for the district and division embracing the place in which it is pending. If, in considering the petition, the district court determines that the employee was not acting within the scope of his office or employment, the action or proceeding shall be remanded to the State court.

(4) Upon certification, any action or proceeding subject to paragraph (1), (2), or (3) shall proceed in the same manner as any action against the United States filed pursuant to section 1346(b) of this title and shall be subject to the limitations and exceptions applicable to those actions.

(5) Whenever an action or proceeding in which the United States is substituted as the party defendant under this subsection is dismissed for failure first to present a claim pursuant to section 2675(a) of this title, such a claim shall be deemed to be timely presented under section 2401(b) of this title if--

(A) the claim would have been timely had it been filed on the date the underlying civil action was commenced, and

(B) the claim is presented to the appropriate Federal agency within 60 days after dismissal of the civil action.

(e) The Attorney General may compromise or settle any claim asserted in such civil action or proceeding in the manner provided in section 2677, and with the same effect.

§ 2680. Exceptions

Effective: October 6, 2006

Currentness

The provisions of this chapter and [section 1346\(b\)](#) of this title shall not apply to--

(a) Any claim based upon an act or omission of an employee of the Government, exercising due care, in the execution of a statute or regulation, whether or not such statute or regulation be valid, or based upon the exercise or performance or the failure to exercise or perform a discretionary function or duty on the part of a federal agency or an employee of the Government, whether or not the discretion involved be abused.

(b) Any claim arising out of the loss, miscarriage, or negligent transmission of letters or postal matter.

(c) Any claim arising in respect of the assessment or collection of any tax or customs duty, or the detention of any goods, merchandise, or other property by any officer of customs or excise or any other law enforcement officer, except that the provisions of this chapter and [section 1346\(b\)](#) of this title apply to any claim based on injury or loss of goods, merchandise, or other property, while in the possession of any officer of customs or excise or any other law enforcement officer, if--

(1) the property was seized for the purpose of forfeiture under any provision of Federal law providing for the forfeiture of property other than as a sentence imposed upon conviction of a criminal offense;

(2) the interest of the claimant was not forfeited;

(3) the interest of the claimant was not remitted or mitigated (if the property was subject to forfeiture); and

(4) the claimant was not convicted of a crime for which the interest of the claimant in the property was subject to forfeiture under a Federal criminal forfeiture law..¹

(d) Any claim for which a remedy is provided by chapter 309 or 311 of title 46 relating to claims or suits in admiralty against the United States.

(e) Any claim arising out of an act or omission of any employee of the Government in administering the provisions of [sections 1-31 of Title 50, Appendix](#).

(f) Any claim for damages caused by the imposition or establishment of a quarantine by the United States.

[(g) Repealed. Sept. 26, 1950, c. 1049, § 13(5), 64 Stat. 1043.]

(h) Any claim arising out of assault, battery, false imprisonment, false arrest, malicious prosecution, abuse of process, libel, slander, misrepresentation, deceit, or interference with contract rights: *Provided*, That, with regard to acts or omissions of investigative or law enforcement officers of the United States Government, the provisions of this chapter and [section 1346\(b\)](#) of this title shall apply to any claim arising, on or after the date of the enactment of this proviso, out of assault, battery, false imprisonment, false arrest, abuse of process, or malicious prosecution. For the purpose of this subsection, "investigative or law enforcement officer" means any officer of the United States who is empowered by law to execute searches, to seize evidence, or to make arrests for violations of Federal law.

(i) Any claim for damages caused by the fiscal operations of the Treasury or by the regulation of the monetary system.

(j) Any claim arising out of the combatant activities of the military or naval forces, or the Coast Guard, during time of war.

(k) Any claim arising in a foreign country.

(l) Any claim arising from the activities of the Tennessee Valley Authority.

(m) Any claim arising from the activities of the Panama Canal Company.

(n) Any claim arising from the activities of a Federal land bank, a Federal intermediate credit bank, or a bank for cooperatives.

CHAPTER 60 - ROAD MAINTENANCE**

This chapter provides guidelines for determining road maintenance criteria, using the Forest Service Road Maintenance Management System, for sharing road maintenance responsibilities and obligations with other road users, and for planning for emergency situations.

61 - MAINTENANCE CRITERIA

Maintenance criteria describe how a road is to be maintained. The criteria include:

1. Requirements for the protection of adjacent resources or improvements such as streams, lakes, vegetation, and facilities.
2. Smoothness required for desired operating speed and for user comfort and convenience. The level of smoothness should be consistent with the road design.
3. Acceptability of dust.
4. Season of use and approximate volumes and types of traffic.
5. Current and future road operation and maintenance strategies.

Continually review and update information to ensure that maintenance criteria remain consistent with management area direction, resource program needs, road management objectives, and available resources. Line and interdisciplinary staff participation in this process is essential.

Document road maintenance criteria through road management objectives (ch. 10).

62 - ROAD MAINTENANCE MANAGEMENT SYSTEM

The Road Maintenance Management System provides a systematic process for field units to effectively and efficiently manage their road maintenance programs. Use the Road Maintenance Management System to set priorities, plan, budget, schedule, perform, monitor, and evaluate maintenance of forest roads.

Select road maintenance levels consistent with road operation and maintenance criteria. Perform condition surveys, as necessary, to determine existing road conditions. Develop maintenance prescriptions to correct identified deficiencies. Rank maintenance prescriptions in order of priority.

Combine maintenance prescriptions to develop the annual Forest Road Maintenance Plan (FSM 7732.11). Consider all National Forest System roads and other Forest Service-maintained roads. As a minimum, the plan should document the following:

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

1. Work to be accomplished (maintenance activities).
2. Who will perform the work (Forest Service, timber purchaser, county, cooperator, and so forth).
3. Estimated cost of the work.
4. How will the work be financed (Federal appropriations, purchaser deposits, and so forth).
5. How will the work be accomplished (force account, contract, and so forth).
6. When will the work be accomplished.
7. What needed work will not be accomplished.

Modify the plan as necessary to balance requirements with available resources. For example, if estimated costs exceed available funding, it may be necessary to defer work, reduce maintenance frequencies, close roads, or allow roads to deteriorate. Correlate modifications with resource program needs and road operation and maintenance criteria. Obtain line approval of the proposed maintenance plan (FSM 7732.04c).

Schedule and accomplish work in accordance with approved plan. Continually evaluate work accomplishments; make needed revisions and report accomplishments. Use the current year's program evaluation as input to develop future years' programs and update maintenance activity standards.

62.1 - Scope

Road maintenance includes any expenditure in the repair or upkeep of a road necessary to perpetuate the road and provide for its safe use. Work items may include surface rock replacement, seal coats and asphalt overlays, bridge replacement, slide removal, and other items that contribute to the preservation of the existing road. Road maintenance is not intended to substantially improve conditions above those originally constructed; however, there may be a need for adding to or modifying the original conditions without increasing service provided. Typical examples of these activities include installing additional minor culverts and traffic control devices, implementing traffic management strategies, placing small quantities of spot surfacing, and revegetating cut and fill slopes.

Some roads may be allowed to disinvest to allow uncompensated deterioration of assets gradually over time. For example, a road may need to be operated and maintained at a higher level during periods of commercial use than is required at other times.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

Other situations may require that a road be stabilized to preserve the road structure and/or to reduce erosion and then stored (maintenance level 1) between use cycles. Some maintenance work activities may be deferred while the road is in a planned disinvestment or a stored cycle.

This work may be accomplished at some future date through maintenance or reconstruction, depending on complexity and extent. Opening a stored road is normally considered maintenance. Work performed to raise a stored road's service level above that to which it was originally constructed is considered to be road reconstruction and should be financed accordingly.

Decommissioning and/or returning a roadway to resource production is not considered maintenance. Funding for such work is a resource program responsibility. Appropriated road maintenance funds may be used for decommissioning if authorized by Congress in annual appropriations bills.

62.2 - Information Requirements

Record current inventory data road management objectives in Infra Travel Routes. Maintain a permanent road file to document, on an as needed basis, other pertinent road maintenance information such as maintenance criteria, traffic data, traffic accident records, road logs, condition surveys, as-built drawings, and final construction reports.

62.3 - Maintenance Levels

Maintenance levels define the level of service provided by, and maintenance required for, a specific road. Maintenance levels must be consistent with road management objectives and maintenance criteria.

62.31- Factors

Consider the following factors when selecting maintenance levels:

1. Road Management Objectives.
2. Road investment protection requirements.
3. Service life and current operational status.
4. User safety.
5. Volume, type, class, and composition of traffic.
6. Surface type.
7. Travel speed.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

8. User comfort and convenience.
9. Functional classification.

Roads may be currently maintained at one level and planned to be maintained at a different level at some future date. The operational maintenance level is the maintenance level currently assigned to a road considering today's needs, road condition, budget constraints, and environmental concerns; in other words, it defines the level to which the road is currently being maintained. The objective maintenance level is the maintenance level to be assigned at a future date considering future road management objectives, traffic needs, budget constraints, and environmental concerns. The objective maintenance level may be the same as, or higher or lower than, the operational maintenance level. The transition from operational maintenance level to objective maintenance level may depend on reconstruction or disinvestment.

62.32 - Maintenance Level Descriptions

Maintenance levels 1-5 (operational and objective) are described in the following paragraphs:

1. **LEVEL 1.** These are roads that have been placed in storage between intermittent uses. The period of storage must exceed 1 year. Basic custodial maintenance is performed to prevent damage to adjacent resources and to perpetuate the road for future resource management needs. Emphasis is normally given to maintaining drainage facilities and runoff patterns. Planned road deterioration may occur at this level. Appropriate traffic management strategies are "prohibit" and "eliminate" all traffic. These roads are not shown on motor vehicle use maps.

Roads receiving level 1 maintenance may be of any type, class, or construction standard, and may be managed at any other maintenance level during the time they are open for traffic. However, while being maintained at level 1, they are closed to vehicular traffic but may be available and suitable for nonmotorized uses.

2. **LEVEL 2.** Assigned to roads open for use by high clearance vehicles. Passenger car traffic, user comfort, and user convenience are not considerations. Warning signs and traffic control devices are not provided with the exception that some signing, such as W-18-1 "No Traffic Signs," may be posted at intersections. Motorists should have no expectations of being alerted to potential hazards while driving these roads. Traffic is normally minor, usually consisting of one or a combination of administrative, permitted, dispersed recreation, or other specialized uses. Log haul may occur at this level. Appropriate traffic management strategies are either to:

- a. Discourage or prohibit passenger cars, or
- b. Accept or discourage high clearance vehicles.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

3. LEVEL 3. Assigned to roads open and maintained for travel by a prudent driver in a standard passenger car. User comfort and convenience are not considered priorities. The Manual on Uniform Traffic Control Devices (MUTCD) is applicable. Warning signs and traffic control devices are provided to alert motorists of situations that may violate expectations.

Roads in this maintenance level are typically low speed with single lanes and turnouts. Appropriate traffic management strategies are either "encourage" or "accept." "Discourage" or "prohibit" strategies may be employed for certain classes of vehicles or users.

4. LEVEL 4. Assigned to roads that provide a moderate degree of user comfort and convenience at moderate travel speeds. Most roads are double lane and aggregate surfaced. However, some roads may be single lane. Some roads may be paved and/or dust abated. Manual on Uniform Traffic Control Devices is applicable. The most appropriate traffic management strategy is "encourage." However, the "prohibit" strategy may apply to specific classes of vehicles or users at certain times.

5. LEVEL 5. Assigned to roads that provide a high degree of user comfort and convenience. These roads are normally double lane, paved facilities. Some may be aggregate surfaced and dust abated. Manual on Uniform Traffic Control Devices is applicable. The appropriate traffic management strategy is "encourage."

62.33 - Management Decisions About Maintenance Levels

Roads assigned to maintenance levels 2-5 are either constant service roads or intermittent service roads during the time they are open to traffic.

Roads closed to public motor vehicle use, but which receive Forest Service administrative traffic, are constant service roads and are thus not level 1. The need to maintain a road for the effects of traffic is not a function of vehicle ownership.

The distinction between maintenance levels 1 and 2 is sharply defined. Level 1 roads are roads placed in storage with all vehicular traffic eliminated. Level 2 roads are passable by prudent drivers in high clearance vehicles.

The distinction between maintenance levels 2 and 3 is also sharply defined. Level 2 roads are not maintained to be passable to standard four wheel passenger cars. No provision is made for user comfort, user convenience, and speed of travel. Neither is any provision made to warn users about changing conditions and safety concerns on the road ahead. On the other hand, level 3 roads are passable to prudent drivers in passenger cars. Users can reasonably drive with expectations of predictable road conditions and can expect warning signs and traffic control devices meeting Manual on Uniform Traffic Control Devices standards when hazards are present.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

The distinctions between maintenance levels 3, 4, and 5, which are roads managed as public roads (FSM 7730.5), are not sharply defined. Some parameters overlap. Select maintenance levels based on the best overall fit of the parameters for the road in question. In those situations where the parameters do not indicate a definite selection, use the desired level of user comfort and convenience as the overriding criteria to determine the maintenance level.

Road surface smoothness and speed of travel are not the only factors that determine operational road maintenance level. The economics of commercial haul may result in the surfaces of level 2 roads being maintained in a very smooth and dust free condition. Such roads can be driven at high rates of speed. However, unless engineering studies have been performed to identify whether any warning signs and traffic control devices are needed for a mix of all vehicle types at 85th percentile speeds and any needed signs and devices have been installed, a "discourage passenger car" traffic management strategy must remain in place, and the road still should be considered operational level 2.

62.4 - Maintenance Activities and Maintenance Standards [RESERVED]**62.5 - Condition Surveys**

Perform condition surveys as needed to provide up-to-date knowledge of the road condition. Itemize and rank deficiencies needing correction, make recommendations for developing or updating the maintenance prescription, and provide information for traffic management decisions. Frequency and intensity of condition surveys will vary with the road maintenance level and the risk involved.

62.6 - Maintenance Prescription

Maintenance prescriptions identify the type and extent of tasks, location, frequency, and constraints in sufficient detail to contract work, schedule crew and equipment, and purchase materials. They form the basis for the annual forest road maintenance plan. Update maintenance prescriptions as needed to reflect changes in management objectives, maintenance criteria, funding, and condition survey findings. Prescription detail will vary depending on the tasks to be done, road maintenance level, materials, environment, and terrain. In the prescription, document work to be done annually, and work needed on a multi-year cyclical schedule.

62.7 - Maintenance Plans

Prepare an annual road maintenance plan based on work described and estimated in the maintenance prescriptions. Organize and integrate the work to be accomplished by the Forest Service and other road users and maintainers, including timber purchasers, cost-share cooperators, local governments, permittees, human resource and volunteer programs, and other Federal agencies.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE****62.71 - Plan Contents**

Identify for each road or group of roads:

1. Specific work tasks.
2. Quantity of work.
3. Date work is to be accomplished (for example, spring or summer, or May or July).
4. Estimated costs.
5. Funding sources.
6. Work performance responsibilities.

Balance plan detail with the needs of the individual forest and the on-the-ground situation. Consider all National Forest System roads in the plan. Equate individual user's maintenance responsibilities with the requirements in their contract, cost share agreement, permit, or cooperative agreement as appropriate.

62.72 - Plan Development

Develop plans for different administrative units such as National Forests, ranger districts, zones, or counties as appropriate.

Maintenance needs often exceed available resources. In this situation, establish priorities to ensure that available funding is directed to the highest priority work. In adjusting plans to meet available resources, consider:

1. Deferring specific maintenance activities or other actions to reduce resource needs,
2. Implementing seasonal or yearlong road use restrictions,
3. Operating roads at maintenance levels less than objective maintenance levels, and
4. Modify road management objectives and/or land management and resource program objectives when significant changes are necessary.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

62.73 - Plan Approval

Obtain approval in accordance with FSM 7732.04c.

62.8 - Plan Implementation and Monitoring

62.81 - Scheduling

Consider logical sequences of work accomplishments, seasonal limitations, unanticipated work, delays, and weather in developing the maintenance schedule. Unless a more specific schedule is required, schedule work by season (spring, summer, fall, or winter). Monitor and update the schedule to accommodate changes in work requirements, weather, workforce, equipment or materials availability, unanticipated road use, work performance by other maintainers, or emergency situations.

Include provisions in road maintenance contracts, cooperative agreements, and permits to adjust the anticipated work schedule as needed to conform with current needs and constraints.

62.82 - Performance

Perform a confirmation condition survey of the road to be maintained prior to initiating maintenance work to:

1. Confirm that the work activities specified in the maintenance plan still need to be accomplished, and/or
2. Determine if additional work is required. Modify plans and schedules accordingly.

62.83 - Inspection

Review completed work for compliance with maintenance specifications.

62.84 - Monitoring and Evaluation

Monitor work accomplishments and associated costs as needed to address management needs. Include samples of work accomplished by force account, contract, timber purchasers, and others. Summarize and analyze work accomplishment data as appropriate.

Evaluate overall program accomplishment for conformance with the road management objectives. Compare actual costs with estimated costs and budgeted funds.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

Use accomplishment reports and field review reports to:

1. Monitor work performance against planned work program;
2. Make adjustments in the utilization of workforce, equipment, or methods of work;
3. Update maintenance standards; and
4. Estimate future maintenance needs and costs.

63 - MAINTENANCE SHARING**63.1 - Principles**

Share financial responsibility for maintaining National Forest System (NFS) roads with cooperators, local governments, road users (commercial and noncommercial), or a combination thereof, commensurate with road use. See FSM 7732.03 for specific policy.

Allocate financial responsibility for costs associated with management of the NFS road system (road management objectives, condition surveys, maintenance prescriptions, traffic counting, maintenance planning, and other associated activities) to the Forest Service except that the financial responsibility for work made necessary by specific users or groups of users may be allocated to those specific users or groups of users. Other financial responsibilities depend, to some degree, on the type of traffic using the road. Exhibit 01 shows allocation of traffic types.

63.1 - Exhibit 01

Traffic Types

| Traffic Type | Responsibility Allocated To |
|------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. General Use Traffic | State, local government, Forest Service; depending on individual situation (for example: Road jurisdiction, authority, use permits, Memorandums of Understanding, and order prohibitions). |
| 2. National Forest Traffic | |
| a. Forest Administrative Traffic | Forest Service* |
| b. Forest Commercial Traffic | Commercial User |
| c. Forest Visitor Traffic | Forest Service* |
| 3. Non-Forest Service Commercial Traffic | State, local government, Forest Service, commercial user; dependent upon individual situation (for example, road jurisdiction, authority, use permits, Memorandums of Understanding, and order prohibitions). |
| 4. Cooperator (Cost Share) Traffic | In accordance with agreement (FSM 5460). |

* Under certain conditions, responsibility is allocated to commercial users. See section 63.4

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE****63.2 - Sharing Requirements**

The legal basis for requiring road users to share in the maintenance of National Forest System roads is found in Title 36, Code of Federal Regulations, section 212.5. Implement these sharing requirements through contracts, permits, and agreements as described in the following sections.

63.21 - Timber Sale and Resource Stewardship Contracts

Provision B/BT5.3 of Timber Sale Contract Forms FS-2400-6/6T, and FS-2400-3/3T, and provision F/FT.3 of Integrated Resource Timber Contract form FS-2400-13/13T, makes timber sale purchasers and stewardship contractors responsible for road maintenance commensurate with their use. Integrated Resource Service Contracts contain a clause similar to the provision in the timber contracts. Include maintenance specifications and/or special requirements in the appropriate C/CT and K/KT provisions of the Timber Sale or Stewardship Contract. See FSH 2409.15, chapter 40, Timber Sale Administration Handbook, and FSH 2409.15, chapter 50, Timber Sale Administration Handbook for specific direction.

63.22 - Cost Share Agreements

Cooperatively maintain the cost share road system to the agreed upon maintenance level in a timely manner to the standards of original construction or reconstruction or as otherwise agreed to in writing (FSM 7732.24). Develop signed maintenance agreements with each cooperator in accordance with the Cooperative Road Maintenance Agreement in FSH 1509.11, section 24.

63.23 - Road Maintenance Agreements

Implement maintenance agreements with State, county or local government agencies, and other Federal agencies to document the sharing of road maintenance responsibilities. See FSM 1530 for policy and model agreement for the exchange of road maintenance responsibilities or maintenance operations between Federal agencies. See FSH 1509.11, Grants and Agreements Handbook, chapter 30, for direction and sample agreement for cooperative maintenance activities with States, counties, or local governments.

63.24 - Road Use Permits

Include appropriate road maintenance requirements in Road Use Permit, form [FS-7700-41](#), when authorizing use of existing National Forest System roads where unrestricted road use has been limited by a road order pursuant to Title 36, Code of Federal Regulations, section 261.54 and where use is not covered by contract, authorization, or agreement.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE****63.25 - Special Use Authorizations**

Include appropriate road maintenance requirements in special use authorizations used to authorize construction of roads or to grant rights of use in existing roads. See FSM 2730 for specific policy and direction on special use permits.

63.26 - Off-Highway Haul

Limit sharing of road maintenance costs to that associated with standard highway load traffic. Except for unusual situations, the Forest Service does not share in maintenance costs attributable to Off-Highway Haul (OHH) (FSM 7730.5). Assign all maintenance costs attributable to OHH to the user.

63.3 - Methods of Sharing

Road users may redeem their maintenance sharing responsibilities in several different ways. The most common methods are described below.

63.31 - Work Performance

Require road users to perform road maintenance work equal in value to their commensurate road maintenance obligation. This may involve performing all or selected maintenance activities on a continuing or rotating basis.

63.32 - Cooperative Work

Use this procedure when the Forest Service performs or is responsible for performing a portion of the total maintenance job and the cooperator(s) is responsible for performing the remainder of the total maintenance job. This procedure may also apply when the Forest Service agrees to fully maintain one road and the cooperator agrees to fully maintain another road. Use this procedure to enhance program efficiencies with other Federal agencies and local governments.

The policy statement on interagency exchange of road maintenance signed by the Forest Service, Fish and Wildlife Service, Park Service, Bureau of Land Management, and Bureau of Indian Affairs is the enabling document that provides an umbrella for the local officers of these agencies to enter into a yearly, seasonal, or periodic road maintenance agreement. See FSM 1531.07g for Policy and Model Interagency Road Maintenance Exchange Agreement.

Use this process to offset maintenance work on a value-for-value basis with counties and local government agencies. Develop cooperative agreements with counties and local government agencies that provide for the Forest Service to maintain county or local government roads and for

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

the county or local governments to maintain National Forest System roads. Ensure that roads are included in the operating plan of the cooperative agreement and that offsetting maintenance work is on a value-for-value basis. When completed, verify that the agreed-to work has been performed and is of equal value.

63.33 - Deposited Funds

Use this procedure in situations where the user's share is relatively small in comparison with the total maintenance job, when it is not feasible for the user to perform the work, or when cyclical work (such as surfacing replacement or brush cutting) will not be required until some future date. Collect from users those funds that are equal in value to their maintenance obligation. Arrange for the maintenance work to be accomplished. See FSM 6510 for fiscal direction on use of deposited funds.

63.34 - Contributed Materials

Users may contribute maintenance materials, equal in value to their maintenance obligation, to the Forest Service. Include these materials in the Forest Service maintenance program either immediately or at some future date. Use this process in situations that require stockpiling of surfacing material, supplying culvert pipe or other drainage materials, supplying dust abatement, or other materials. The Forest Service also may contribute maintenance materials, equal in value to the Forest Service's maintenance obligation, when other users will perform the work.

63.35 - Forest Service Payment

Pay the road user to perform the maintenance work for which the Forest Service is responsible. Follow established procurement procedures (FSM 6510).

63.4 - Commensurate Sharing

Knowledge of road users, types, classes, use season, and volumes of use for each route is necessary to properly assess responsibilities for maintenance.

Determine the amounts of such use by traffic surveillance and analysis. Estimate use if documented traffic data is not available.

Identifying other parties as having financial responsibility for road maintenance does not imply that the Forest Service has relinquished any of its management prerogatives or responsibility to ensure that maintenance is performed to prescribed standards. The Forest Service may authorize the user to actually perform the work or to deposit the monies to pay for performance by the Forest Service or some other party.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE****63.41 - Responsibility and Associated Costs**

Determine the total costs associated with on-the-ground maintenance performance by computing the total amount of work of each activity to be performed and applying realistic costs. Next, determine each user's commensurate financial responsibility. The preferred procedure for this determination is described below. Other procedures may be used provided the procedures comply with the intent of the Forest Roads and Trails Act of 1964 (16 U.S.C. 532-538) and have been approved by the regional forester. This procedure is not applicable to cost share roads. See section 63.22 for direction on cost share roads. See FSM 2400 and FSH 2409.15, Timber Sale Administration Handbook, for policy and guidelines on timber sale maintenance requirements and allowances.

1. Roads Assigned to Maintenance Levels 1 and 2. Most roads managed in maintenance levels 1 or 2 prior to commercial use, experience only minor noncommercial traffic during periods of commercial use. If noncommercial traffic is significant during periods of commercial use, it may be discouraged with temporary traffic control warning signs about timber harvest activities or regulated by order (36 CFR 261) and signed accordingly. Therefore, the impact of noncommercial traffic on the total maintenance needs during periods of commercial use will usually be insignificant. The Forest Service is financially responsible for maintenance work made necessary due to closure trespass and for road damage caused by public use during periods when public traffic is significant (for example, hunting season).

a. Maintenance Level 1 Roads. The Forest Service is financially responsible for basic custodial care during the nonuse period prior to commercial use, to keep the road stable, drainage functional, and resource damage at an acceptable level.

The commercial user is financially responsible for opening the road and making it ready for use. Maintenance work to prepare a maintenance level 1 road for use is normally limited to removal (opening) of closure devices, brushing, removal and/or repair of minor slides or slumps, cleaning of roadside ditches and drainage devices, and grading of traveled way. Use reconstruction procedures to accomplish work exceeding these guidelines.

The commercial user is financially responsible for maintaining the road during the period of commercial use. The closing of the road, following the period of use, is the financial responsibility of the last commercial user. The commercial user may perform the closure work or, at Forest Service option, deposit funds for the Forest Service to perform the work following completion of post sale activities. If the Forest Service requires the road to remain open for reasons not associated with the commercial activity, the Forest Service becomes financially responsible for closing the road at some future date.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

b. Maintenance Level 2 Roads. Any maintenance work required to be completed prior to the start of commercial use to accommodate such use is the financial responsibility of the commercial user. Use reconstruction procedures to accomplish substantial improvements in road standard, to make extensive repairs, or to raise the traffic service level.

The commercial user is responsible for all required road maintenance during the period of commercial use.

2. Roads Assigned to Maintenance Levels 3, 4, and 5. Generally a mixture of commercial and noncommercial traffic exists on these roads.

a. Routine Maintenance. The financial responsibility for all routine maintenance is shared by the Forest Service and other users. Determine each user's financial responsibility on the basis of traffic units generated by their use. A traffic unit is defined as the average weight of a light, noncommercial vehicle having four or more wheels, passing a given point on a road, moving in either direction. Assign all other vehicles an equivalent traffic unit based on the ratio of their weight to that of the light, noncommercial vehicle. Establish the average weight of light, noncommercial vehicles based on sample traffic counts or other reliable data.

Limit Forest Service financial responsibility to a commensurate share of those maintenance activities required to be performed for the maintenance level assigned to the road prior to commencement of commercial use. For example, if dust abatement was not required prior to commercial use, but is required to accommodate commercial use, it should be financed entirely by the commercial user.

b. Other than Routine Maintenance. Determine the financial responsibility for other than routine maintenance in three different categories as follows:

(1) Surfacing Replacement. Establish surfacing replacement rates based on the best information available. Specify replacement rates by surfacing type and quantify in easily defined common units of measure such as cubic yards or tons of material per thousand board feet or ton-mile of haul. Use the following equation to determine each user's financial responsibility: User's financial responsibility = (Amount of haul) x (replacement rate) x (unit cost of material). Unit cost is estimated at the date of application, not to exceed the life of the timber sale, or 5 years for other situations.

The Forest Service is financially responsible for any deficit existing between the amount of funds collected by the above procedure and the total funds required to accomplish the work.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

Commercial users may actually replace the surfacing on existing roads or deposit funds for future replacement by the Forest Service. The procedure to be followed will be determined by the Forest Service on a case-by-case basis.

(2) Maintenance Items with a Work Cycle of 5 Years or Less. The financial responsibility for this work is shared by the Forest Service and other users based on traffic units. Items of work may include brushing, pavement maintenance, and structure maintenance. Use the best information available to project traffic over the work cycle period. Estimate the cost of the work at the time of planned performance.

Also use this procedure in those situations where the life of a timber sale exceeds 5 years.

(3) Maintenance Items with a Work Cycle Exceeding 5 Years. Financial responsibility for this work is normally assigned to the Forest Service. Exceptions can be made, on a case-by-case basis, for unusual high cost items such as painting of large bridges whose work cycle exceeds 5 years.

63.42 - Construction-Induced Maintenance

Construction-induced maintenance includes all maintenance work resulting directly from delivery of materials, equipment, or personnel to, or from, a construction project.

The Forest Service is financially responsible for all construction-induced maintenance on existing National Forest System roads that provide access for Forest Service public works or timber sale contract road construction and/or reconstruction projects. Include construction-induced maintenance as a requirement in the public works or timber sale contract. Except in unusual situations, do not require maintenance deposits from either a public works or timber sale contractor for construction-induced maintenance.

Private parties and other users are financially responsible for all construction-induced maintenance on National Forest System roads that result from their construction activities on either National Forest or non-National Forest lands when such use is restricted by order under Title 36, Code of Federal Regulations, section 261.54. Determine each party's financial responsibility in accordance with the procedures previously described. Maintenance deposits for construction-induced maintenance may be required from private parties and other users.

63.43 - National Forest Administration Generated Maintenance

National Forest administration generated maintenance includes all maintenance work resulting directly from delivery or removal of materials, equipment, or personnel to, or from, resource protection and service contract activities. This includes fire suppression and stewardship service contracts.

**FSH 7709.59 - ROAD SYSTEM OPERATIONS AND MAINTENANCE HANDBOOK
CHAPTER 60 - ROAD MAINTENANCE**

The Forest Service is financially responsible for all National Forest administration generated maintenance on National Forest System roads. Include maintenance for traffic as a requirement in stewardship service contracts and provide for it in the course of fire suppression. Except in unusual situations, do not require maintenance deposits in stewardship service contracts.

64 - EMERGENCY PROCEDURES

Prepare plans as needed to provide direction, guidance, and administrative procedures for dealing with emergency situations such as flood, landslide, earthquake, fire, or acts of terrorism.

The repair of serious damage to National Forest System roads resulting from natural disasters over wide areas or catastrophic failures may qualify for Emergency Relief for Federally-Owned (ERFO) roads through the Federal Highway Administration. See FSM 7732.26 for direction on repairs performed with ERFO funds.

RETURN RECEIPT REQUESTED

(b)(6) Re: Your Client:

Dear Mr. Hart:

We have received your letter dated, September 18, 2014, in response to our letter, dated September 17, 2014, requesting documentation signed by your client, designating your firm as legal representative. We are not able to accept your letter of confirmation as formal notice that you have been retained by therefore, please provide a copy of a retainer agreement or a signed statement from your client stating that he authorizes you to file a claim on his behalf.

As an agency, the Forest Service does not have authority to settle tort claims and is required to refer them to the USDA Office of the General Counsel (OGC) for determination. It is our responsibility to process claims for transmittal to the OGC. However, before we can do so in this case, we are returning a copy of your SF-95 and request that you submit the following documentation and/or information:

1. Blocks 3 -7 of the SF-95 must be filled out.
2. Provide a detailed description of the incident and the exact location of where the accident occurred.
3. In support of the personal injury claim, please provide the following:
 - A written report by your client's attending physician setting forth the nature and extent of the injury, nature and extent of treatment, any degree of temporary or permanent disability, the prognosis, period of hospitalization, and any diminished earning capacity.
 - Itemized bills for medical, dental, and hospital expenses incurred, or itemized receipts of payment for such expenses.

- If the prognosis reveals the necessity for future treatment, a statement of expected expenses for such treatment.
 - If the claim is made for loss of time from employment, a written statement from your client's employer showing actual time lost from employment, whether he is a full or part-time employee, and wages or salary actually lost.
 - If the claim is made for loss of income and your client is self-employed, documentary evidence showing the amounts of earnings actually lost.
 - Amount of insurance paid or payable.
4. Witness statements, if available.
 5. Copy of police report, if available.
 6. Photographs of cattle guard and injuries.
 7. Any other evidence or information which may have a bearing on either the responsibility of the United States or the damages claimed.

Please send the requested information to the attention of Charlene Rider at address listed above.

Be advised your submission does not meet the requirements for filing a claim under the Federal Tort Claims Act (FTCA), and the two-year statute of limitations will continue to run until the defects identified above are corrected.

Once your additional information/documentation is received, your claim will be processed and transmitted to the OGC for review and determination. Be advised that the OGC cannot approve payment for claimed damages that are insufficiently documented.

Charlene,

I went out to El Porvenir to look at the cattle guard that is subject of a recent claim against the government. Sorry it took so long, but I was given bad information about the cattle guard's location. There are two cattle guards on the road to the campground, one is at the end of the state highway and the other is at the beginning of the campground. The state highway does not end at the campground, but rather ends around a mile before the campground. Anyway, the cattle guard in question, according to the photo from the claim that I saw, is the one in the campground, not the one at the end of the state highway.

The cattle guard belongs to the Forest Service. There is an inholding near the road and the road may cross the private property, but we have an easement for the road and the cattle guard is ours.

Although the cattle guard is not new, it is a standard manufactured cattle guard. When I saw it on Monday, the cattle guard was in good repair and has been adequately maintained. There isn't much else to say about it. It looks OK. I must say, though, that there are no cattle guard warning signs on either side of the cattle guard. For your information, this is what the Forest Service sign manual says about installing cattle guard signs:

3B.2.6 CATTLE GUARD, XX FT, XX MILES, OR AHEAD (FW3-6a) Sign

Based on engineering judgment, a CATTLE GUARD XX FT, XX MILES, or AHEAD (FW3-6a) sign may be used in advance of a cattle guard that is not visible for a sufficient distance for a road user to respond appropriately. Cattle guard steel grates may present unique problems for motorcycles, snowmobiles, and bicycles. Evaluate the cattle guard approach from both directions. Depending on sight distance, the signs may be needed on one or both approach legs.

If you have questions about this, please give me a call. If anyone wants to go out and take a look at the site, let me know and I'll be glad to take them out. It takes around two hours to get there from Santa Fe.

More information. I looked at your E-mail again and here are the answers:

- Who maintains the cattle guard at the El Porvenir Campground (State or FS)? The Forest Service maintains the cattle guard. It belongs to the Forest Service.
- Are there any type of warning signs posted for the cattle guard? If so, is it possible to get photos of the signs? There are no warning signs, but there are delineators. In the attached photo you can see the back of the delineator paddles. If you need better pictures, I'll get them.

If the FS is responsible for the maintenance of the cattle guard:

- Is the cattle guard free of structural defects? The cattle guard seems OK. There's not much else to say about it.
- When was the last inspection done? (Maintenance records would help) We don't inspect the cattle guards we just clean them out if they need work. According to the database, I did a condition survey on the road in May 2012. The database does not show any unusual maintenance requirements for the cattle guard. Frankly, I don't remember doing the condition survey, but I must have, because I'm in charge of the database and I wouldn't have put the inspection into the database if I hadn't done it.
- What regulations cover the maintenance of cattle guards? I couldn't find any information in the Forest Service Manual about maintaining cattleguards.

Finally, I need to say that the information on the length of this road has not been very good and we've changed it several times in the database. One of our GIS layers shows the state highway as ending at the campground, but that isn't correct. The forest road starts at the end of state maintenance, and that's almost a mile from the campground.

Good morning,

I have been assigned the above-mentioned claim against the government, filed by attorney F.

(b)(6) Michael Hart on behalf of his client (b)(6) According to the claimant, on July 18, 2014, he was riding his bike on a FS road in El Porvenir Campground on the Santa Fe NF. As he crossed a cattle guard, his bike wheel fell into a space on the cattle guard and he flipped over the front of the bike. He allegedly sustained head, face, and neck injuries. In addition, he allegedly sustained a cervical strain and bruises. I have requested additional information regarding the incident (exact location) and supporting documentation regarding his injuries.

If you have any information regarding this incident, please forward it to my attention to the address listed below or email me at charlenerider@fs.fed.us. Is there a point of contact for the El Porvenir Campground? I will need a good point of contact in the event I need to gather some information regarding that area.

Please let me know if you have any questions.

Good afternoon [redacted]

[redacted] gave me your contact info to get some information regarding the El Porvenir Campground area. I am working on a claim for personal injuries filed by an attorney on behalf of his client [redacted] [redacted] alleges that he was riding his bicycle on a Forest Road in the El Porvenir Campground area on the afternoon of July 18, 2014, when his wheel fell into a space on a cattle guard as he crossed it. He flipped over his bicycle and sustained injuries to his head, face, and neck. I have attached the pictures the claimant sent of the cattle guard.

If you could assist with the following for now, I would greatly appreciate it:

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road?
- Who maintains the road and what is the maintenance level of the road?
- Is the Forest Road designated as a bicycle trail?

Please let me know if you need additional information.

Dear Charlene:

As you know, I sent a Form OMB No 1105-0008 (Standard Form 95) on September 3, 2015. I have also sent the supplemental information requested. I understand, however, that you also need a copy of the fee agreement signed with my office. Enclosed you will find that document.

I would appreciate your letting me know if there is anything else you need to begin your investigation. I have requested medical records and bills and will forward that information to you in the near future.

Sincerely yours,

No I do not. Never heard of this individual or the incident in general. Since he is not a FS employee, this incident was not logged into SHIPS.

(b)(6)

We may want to investigate the cattle guard in question to be sure there was nothing structural that may have contributed to the incident (i.e. anything that may make the FS liable). From the email below, I can't determine if the person was riding a bicycle or a motorcycle. I can see a motorcycle going across the cattle guard (if it were in good condition), but not a bicycle. I will be happy to investigate along with your folks. Let me know.

Good morning,

(b)(6)

I have been assigned the above-mentioned claim against the government, filed by attorney F. Michael Hart on behalf of his client [redacted]. According to the claimant, on July 18, 2014, he was riding his bike on a FS road in El Porvenir Campground on the Santa Fe NF. As he crossed a cattle guard, his bike wheel fell into a space on the cattle guard and he flipped over the front of the bike. He allegedly sustained head, face, and neck injuries. In addition, he allegedly sustained a cervical strain and bruises. I have requested additional information regarding the incident (exact location) and supporting documentation regarding his injuries.

If you have any information regarding this incident, please forward it to my attention to the address listed below or email me at charlenerider@fs.fed.us. Is there a point of contact for the El Porvenir Campground? I will need a good point of contact in the event I need to gather some information regarding that area.

Please let me know if you have any questions.

Good afternoon all,

I'm hoping I can get some help on this claim. I have attached pictures of the cattle guard that the claimant alleges caused his injuries. He was riding a bicycle on a FS road that he believes is approved for bicycle travel when he attempted to cross the cattle guard and his wheel got stuck and he flipped over his bicycle and sustained injuries.

I do not know what road he was on (I can only assume that he was on FR 261) and the exact location of the cattle guard in question. He just states that the cattle guard was in the El Porvenir Campground area. Is there someone you can put me in contact with that will be able to go out to the campground and look for the cattle guard and provide additional information regarding that area?

If you have any questions, please do not hesitate to contact me at the number listed below or email me.

Thank you,
Charlene

No I do not. Never heard of this individual or the incident in general. Since he is not a FS employee, this incident was not logged into SHIPS.

(b)(6)

We may want to investigate the cattle guard in question to be sure there was nothing structural that may have contributed to the incident (i.e. anything that may make the FS liable). From the email below, I can't determine if the person was riding a bicycle or a motorcycle. I can see a motorcycle

(b)(6) going across the cattle guard (if it were in good condition), but not a bicycle. I will be happy to investigate along with your folks. Let me know.

(b)(6) gave me your contact info to get some information regarding the El Porvenir Campground area. I am working on a claim for personal injuries filed by an attorney on behalf of his client (b)(6) (b)(6) alleges that he was riding his bicycle on a Forest Road in the El Porvenir Campground area on the afternoon of July 18, 2014, when his wheel fell into a space on a cattle guard as he crossed it. He flipped over his bicycle and sustained injuries to his head, face, and neck. I have attached the pictures the claimant sent of the cattle guard.

If you could assist with the following for now, I would greatly appreciate it:

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road?
- Who maintains the road and what is the maintenance level of the road?
- Is the Forest Road designated as a bicycle trail?

Please let me know if you need additional information.

We just buy the cattle guards and install them. I'll do some digging around and see what I can find about cattle guards, perhaps from the American Association of State Highway and Transportation Officials. They have lots of publications. I'll look.

A detailed engineering report would be great. The claimant has stated that the cattle guard shouldn't have been the way it is...the gaps were too wide between the cattle guard sections. I can't find anything in the FS regulations that addresses cattle guards (installation, maintenance, inspections etc.). What guidelines do we follow?

Well, there's not much else I can say, but let me do this. I'll go out tomorrow morning and do a detailed engineering report for the lawyers. I'll measure it up completely, photograph it, and measure its location with respect to some of the other features at the site. The photographs will include approach photographs from each direction so that the attorneys can see what the plaintiff saw.

(b)(6)

If that's OK, I'll get it done tomorrow and I should be able to get it to you Friday morning. Again, if anyone wants to go with me to look at the site, they're welcome to go along.

Can you please be more specific on the condition of the cattle guard? What exactly does "seems OK" mean? I'm trying to write up the report and I'm sure the OGC attorney will want a better description.

More information. I looked at your E-mail again and here are the answers:

- Who maintains the cattle guard at the El Porvenir Campground (State or FS)? The Forest Service maintains the cattle guard. It belongs to the Forest Service.
- Are there any type of warning signs posted for the cattle guard? If so, is it possible to get photos of the signs? There are no warning signs, but there are delineators. In the attached photo you can see the back of the delineator paddles. If you need better pictures, I'll get them.

If the FS is responsible for the maintenance of the cattle guard:

- Is the cattle guard free of structural defects? The cattle guard seems OK. There's not much else to say about it.
- When was the last inspection done? (Maintenance records would help) We don't inspect the cattle guards we just clean them out if they need work. According to the database, I did a condition survey on the road in May 2012. The database does not show any unusual maintenance requirements for the cattle guard. Frankly, I don't remember doing the condition survey, but I must have, because I'm in charge of the database and I wouldn't have put the inspection into the database if I hadn't done it.
- What regulations cover the maintenance of cattle guards? I couldn't find any information in the Forest Service Manual about maintaining cattleguards.

Finally, I need to say that the information on the length of this road has not been very good and we've changed it several times in the database. One of our GIS layers shows the state highway as ending at the campground, but that isn't correct. The forest road starts at the end of state maintenance, and that's almost a mile from the campground.

I'll go out and take a look at it this morning. INFRA shows the cattleguard at MP 0.00 and the comments say that the Forest Service road "begins at the cattleguard." The real questions, I believe, is the location of the forest boundary. While there are fences and sign posts out there, the boundary location may not be obvious in a cursory inspection. This may be a question for Leslie.

(b)(6)

Good morning,

I have received some information from [redacted] regarding the El Porvenir Campground cattle guard, and I believe some of the information came from you; however, I need to know the following, if you can help:

- Who maintains the cattle guard at the El Porvenir Campground (State or FS)?
- Are there any type of warning signs posted for the cattle guard? If so, is it possible to get photos of the signs?

If the FS is responsible for the maintenance of the cattle guard:

- Is the cattle guard free of structural defects?
- When was the last inspection done? (Maintenance records would help)

- What regulations cover the maintenance of cattle guards?

Please let me know if you have any questions.

Thank you,
Charlene

Can you please give me a point of contact for someone who does inspections on the cattle guards? I need to know the following information:

- Who maintains the cattle guard at the El Porvenir Campground?
- Is the cattle guard free of structural defects?
- When was the last inspection done?
- Are there warning signs posted for the cattle guard?

In addition, I need to know whether there have been any other incidents reported regarding the cattle guard in question.

(b)(6) No I do not. Never heard of this individual or the incident in general. Since he is not a FS employee, this incident was not logged into SHIPS.

(b)(6) We may want to investigate the cattle guard in question to be sure there was nothing structural that may have contributed to the incident (i.e. anything that may make the FS liable). From the email below, I can't determine if the person was riding a bicycle or a motorcycle. I can see a motorcycle going across the cattle guard (if it were in good condition), but not a bicycle. I will be happy to investigate along with your folks. Let me know.

Good morning,

I have been assigned the above-mentioned claim against the government, filed by attorney F. Michael Hart on behalf of his client [REDACTED]. According to the claimant, on July 18, 2014, he was riding his bike on a FS road in El Porvenir Campground on the Santa Fe NF. As he crossed a cattle guard, his bike wheel fell into a space on the cattle guard and he flipped over the front of the bike. He allegedly sustained head, face, and neck injuries. In addition, he allegedly sustained a cervical strain and bruises. I have requested additional information regarding the incident (exact location) and supporting documentation regarding his injuries.

If you have any information regarding this incident, please forward it to my attention to the address listed below or email me at charlenerider@fs.fed.us. Is there a point of contact for the El Porvenir Campground? I will need a good point of contact in the event I need to gather some information regarding that area.

Please let me know if you have any questions.

Good afternoon all,

I'm hoping I can get some help on this claim. I have attached pictures of the cattle guard that the claimant alleges caused his injuries. He was riding a bicycle on a FS road that he believes is approved for bicycle travel when he attempted to cross the cattle guard and his wheel got stuck and he flipped over his bicycle and sustained injuries.

I do not know what road he was on (I can only assume that he was on FR 261) and the exact location of the cattle guard in question. He just states that the cattle guard was in the El Porvenir Campground area. Is there someone you can put me in contact with that will be able to go out to the campground and look for the cattle guard and provide additional information regarding that area?

If you have any questions, please do not hesitate to contact me at the number listed below or email me.

No I do not. Never heard of this individual or the incident in general. Since he is not a FS employee, this incident was not logged into SHIPS.

[REDACTED]

We may want to investigate the cattle guard in question to be sure there was nothing structural that may have contributed to the incident (i.e. anything that may make the FS liable). From the email below, I can't determine if the person was riding a bicycle or a motorcycle. I can see a motorcycle going across the cattle guard (if it were in good condition), but not a bicycle. I will be happy to investigate along with your folks. Let me know.

Good morning,

I have been assigned the above-mentioned claim against the government, filed by attorney F. Michael Hart on behalf of his client (b)(6). According to the claimant, on July 18, 2014, he was riding his bike on a FS road in El Porvenir Campground on the Santa Fe NF. As he crossed a cattle guard, his bike wheel fell into a space on the cattle guard and he flipped over the front of the bike. He allegedly sustained head, face, and neck injuries. In addition, he allegedly sustained a cervical strain and bruises. I have requested additional information regarding the incident (exact

location) and supporting documentation regarding his injuries.

If you have any information regarding this incident, please forward it to my attention to the address listed below or email me at charlenerider@fs.fed.us. Is there a point of contact for the El Porvenir Campground? I will need a good point of contact in the event I need to gather some information regarding that area.

Please let me know if you have any questions.

We believe the cattle guard is on the Forest boundary. I am not sure who (the State?) is responsible for the maintenance since it is on the boundary. Perhaps [redacted] would know. [redacted] sent [redacted] photos a while back of the cattle guard. The photos could help with the other questions. As far as I know, there have not been other incidents reported regarding this cattle guard.

- Is the cattle guard free of structural defects?
- When was the last inspection done?
- Are there warning signs posted for the cattle guard?

In addition, I need to know whether there have been any other incidents reported regarding the cattle guard in question.

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road? The cattle guard is on the boundary of the campground itself and has a gate with it that we use to shut the campground during the winter months. Cattle guard located on FR261.
- Who maintains the road and what is the maintenance level of the road? Forest Service maintains FR261, level of road is a 1 in INFRA.
- Is the Forest Road designated as a bicycle trail? The forest road is not designated as a bicycle trail.

Good afternoon [redacted]

[redacted] gave me your contact info to get some information regarding the El Porvenir Campground area. I am working on a claim for personal injuries filed by an attorney on behalf of his client [redacted] alleges that he was riding his bicycle on a Forest Road in the El Porvenir Campground area on the afternoon of July 18, 2014, when his wheel fell into a space on a cattle guard as he crossed it. He flipped over his bicycle and sustained injuries to his head, face, and neck. I have attached the pictures the claimant sent of the cattle guard.

If you could assist with the following for now, I would greatly appreciate it:

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road?
- Who maintains the road and what is the maintenance level of the road?
- Is the Forest Road designated as a bicycle trail?

Please let me know if you need additional information.

Charlene, fees are required for camping and picnicking at \$8 per vehicle. If vehicle is parked inside the campground, that individual is required to pay the fee. The El Porvenir Trailhead is located prior to the campground in close proximity, there is not a fee required to park and use the trailhead. Hope this answers your question.

- Is there a cattle guard within the El Porvenir Campground? If so, is it on a Forest Road? The cattle guard is on the boundary of the campground itself and has a gate with it that we use to shut the campground during the winter months. Cattle guard located on FR261.
- Who maintains the road and what is the maintenance level of the road? Forest Service maintains FR261, level of road is a 1 in INFRA.
- Is the Forest Road designated as a bicycle trail? The forest road is not designated as a bicycle trail.

This is how he told me. I understood what he was talking about when he said between each section. There are I believe three sections of cattle guard found at this location. The three sections make up the entire length of cattle guard that stretches perpendicular across the road. [redacted] was describing the gap between each of these sections were too wide, And not butted up against the other one. However, if you were to visit the site the cattle guard sections cannot be butted up against the other section because the two end sections of cattle guard are bolted up to the A-frame that directs traffic to go between the A-frame and over the cattle guard. CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Dear [redacted]

We received your claim for damage related to the Diego Fire in our office on August 22, 2014.

As an agency, the Forest Service (FS) does not have authority to settle tort claims and is required to refer them to the USDA Office of the General Counsel (OGC) for determination. It is our responsibility to process claims for transmittal to the OGC. However, before we can do so in this case, we are returning a copy of your *Claim for Damage, Injury, or Death* form SF-95, asking that you submit the following documentation and/or information:

- Claims for property damage or loss may be filed by the owner(s) of the damaged property, a duly authorized agent, or legal representative. A copy of the property deed showing ownership of the property must be submitted with the claim. Please note that all parties listed as owners must be identified as claimants (Block 2) and must sign the claim in the "Signature of Claimant" block (Block 13a).
- In support of a claim for property damage, you must provide at least two itemized written repair estimates, or itemized receipt for payment if repairs have already been made.
- Provide color copies of the damaged property, if available.
- Submit any other evidence or information including photos which may have a bearing on the responsibility of the Forest Service for the damages claimed.

Your claim, as submitted does not meet the requirements for filing a claim under the Federal Tort Claims Act (FTCA). Please send the above-requested information to the above address to the attention of Susan Mora.

Departmental policy requires that all claims arising from a single occurrence be held in abeyance until the full extent of the claims is known before adjudicating. The FS anticipates receipt of more claims in connection with this incident prior to the expiration of the two-year statute of limitations under the FTCA.

(b)(6)

Once we have received and reviewed all the claims associated with the Diego Fire, they will be transmitted to the OGC for a determination. Please be advised that the OGC cannot approve payment for claimed damages that are insufficiently documented and the claim may also be considered invalid.

If you have any questions, you may contact Claims Specialist Susan Mora at 505-563-7908. Thank you for your cooperation in this matter.

Sincerely,

for
A. LISA LUX
Branch Chief, Claims/Claims Officer

With hard rain fall during the day of July 10, 2014 the ditch culvert got clogged up with debris and caused the water to overflow and flood our yard and a two car garage. There was about 2 inches of water with soot, ashes, & debris. We have brought sand and gravel to cover the soot and hasn't helped any. When it rains the soot comes up and we are tracking it into our house and our carpets are really filthy. We have shampoo the carpets several times and they are still dirty. Lumber that was stored under a camping trailer was water damaged. The tires of the camping trailer were also damaged causing the flooring to fall apart due to moisture.</p> | | | | | | |

INSTRUCTIONS

Claims presented under Federal Tort Claims Act should be submitted directly to the "appropriate Federal agency" whose employee(s) was involved in the incident. If the incident involved more than one claimant, each claimant should submit a separate claim form.

Complete all items - Insert the word NONE where applicable.

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE, AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY.

Failure to completely execute this form to supply the requested material within two years from the date the claim accrued may render your claim invalid. A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.

If instruction is needed in completing this form, the agency listed in item #1 on the reverse side may be contacted. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplementing regulations. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory for the Government is submitted with the claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file for both personal injury and property damage, the amount for each must be shown in item #12 of this form.

DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.

The amount claimed should be substantiated by competent evidence as follows:

(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expensed actually incurred.

(b) In support of claims for damage to property, which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damage, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to specify a sum certain will render your claim invalid and may result in forfeiture of your rights.

PRIVACY ACT NOTICE

This Notice is provided in accordance with the Privacy Act, 5 U.S.C. 552a(e)(3), and concerns the information requested in the letter to which this Notice is attached.

A. Authority: The requested information is solicited pursuant to one or more of the following: 5 U.S.C. 301, 28 U.S.C. 501 et seq., 28 U.S.C. 2671 et seq., 28 C.F.R. Part 14.

B. Principal Purpose: The information requested is to be used in evaluating claims.

C. Routine Use: See the Notices of Systems of Records for the agency to whom you are submitting this form for this information.

D. Effect of Failure to Respond: Disclosure is voluntary. However, failure to supply the requested information or to execute the form may render your claim "invalid".

PAPERWORK REDUCTION ACT NOTICE

This notice is solely for the purpose of the Paperwork Reduction Act, 44 U.S.C. 3501. (b)(6) VEHICLE #1 WAS HEADED NORTHBOUND ON AN UNMARKED DIRT ROAD IN THE TRUCHAS. DRIVER OF VEHICLE #1 STATED HIM AND HIS FRIENDS WERE GOING FOR "A CRUISE". DRIVER OF VEHICLE #1 STATED THE FRONT RIGHT TIRE OF VEHICLE #1 WENT OFF THE DIRT ROAD AND PULLED VEHICLE #1 OFF THE DIRT ROAD CAUSING IT TO FLIP. DRIVER OF VEHICLE #1 STATED [REDACTED] AND HIMSELF WERE INSIDE THE TRUCK WHILE THE REST OF HIS FRIENDS WERE IN THE BED OF THE TRUCK. THE INDIVIDUALS THAT WERE IN THE BED OF THE TRUCK WERE EJECTED. 3 OF THE INDIVIDUALS SUSTAINED INJURIES DUE TO THE CRASH. [REDACTED] SUSTAINED VISIBLE INJURY TO HER FACE. [REDACTED] SUSTAINED VISIBLE INJURY TO HER FACE. [REDACTED] SUSTAINED VISIBLE INJURY TO HIS RIB AREA.

[REDACTED] AND [REDACTED] WERE TRANSPORTED TO THE ESPANOLA HOSPITAL FOR FURTHER EVALUATION. ALL OTHER INDIVIDUALS INVOLVED IN THE CRASH STATED THEY WERE OK BUT WERE SEEN BY MEDICAL PERSONNEL ON THE SCENE. VEHICLE #1 WAS APPROXIMATELY 1 1/2- 2 MILES AWAY FROM THE CAMP SITE WHERE ALL THE INDIVIDUALS INVOLVED IN THE CRASH WALKED BACK TO. A TOWING COMPANY WAS NOT CALLED OUT DUE TO THE ROAD CONDITIONS AND LIGHTING. DRIVER #1 STATED HE WANTED TO LEAVE IT THERE UNTIL DAYLIGHT AND HE WOULD GET SOME HELP GETTING VEHICLE #1 OUT OF WHERE IT WAS AT.

ON JULY 22, 2012 I RECEIVED A PHONE CALL FROM DRIVER #1 OF VEHICLE #1. DRIVER #1 ADVISED ME THAT HE WAS ABLE TO GET THE TRUCK OUT AND IT WAS AT HIS MOTHERS HOUSE. I ADVISED HIM TO STAY THERE SO I CAN GO TAKE PICTURES OF DAMAGES TO VEHICLE #1. VEHICLE #1 SUSTAINED HEAVY BODY DAMAGE TO THE VEHICLES REAR (BODY DAMAGE), RIGHT REAR (SCUFF MARKS), RIGHT FRONT (BODY DAMAGE), FRONT (BODY DAMAGE), LEFT FRONT (BODY DAMAGE), DRIVER DOOR (BODY DAMAGE), SHATTERED WINDSHIELD, AND TOP OF VEHICLE (BODY DAMAGE).

THIS IS THE END OF MY CRASH INVESTIGATION. PICTURES OF VEHICLE #1 WERE TAKEN. A TOWING COMPANY WAS NOT CALLED OUT FOR THIS CRASH. A DIAGRAM WAS NOT DONE DUE TO THE ROAD CONDITIONS, LIGHTING, AND NO PERMANENT MARKERS.

Hi Loredia,

Happy New Year to you!

You sent me an email a few days ago about letting you know about any FOIA requests for Las Conchas fire information. Could you resend it please? I was going to print it and post it to remind me and I accidentally deleted it then.....

I can't do important things in the morning!!! I'm dingy in the morning!

Thank you!

Dear [REDACTED]

Regarding your claim for damage to your vehicle please be advised of the following:

Amount Claimed: \$400.00

Amount Allowed: \$306.71

Date of Damage: August 26, 2016

Date of Claim: August 26, 2016

Region: Southwestern

Forest: Santa Fe National Forest

Authority: 16 U.S.C. 574

Nature of Claim: On August 26, 2016, FS personnel were mowing the grounds at the Cuba Ranger District on the Santa Fe National Forest. While mowing, a rock was propelled towards your vehicle, damaging the window to your 2013 Subaru Crosstrek.

Determination: Although not expressly negligent, we have determined the United States Government is liable for the damage to the property. Please indicate your acceptance of \$306.71 by completing the enclosed form FS-6500-215, Voucher for Payment, as follows:

1. Block 4, Electronic Funds Transfer (EFT) Information. If you desire to have this payment sent directly to your bank, please complete all of these items. If you do not provide this information, a check will be mailed to you at the address in Block 3.
2. Block 5, Taxpayer Identification Number. Please enter your social security number.
3. Block 6, Acceptance by Claimant. Please sign and date in the spaces provided.

Please return the completed form to the attention of Austin Gonzagowski at the address above for payment processing.

Thank you for your cooperation in this matter.

CERTIFIED MAIL - RRR

(b)(6)
Subject: Claim for Property Damage, June 4, 2013, Carson National Forest, El Rito Ranger District

Dear (b)(6)

I have reviewed your claim in the amount of \$991.00 for personal damage to your vehicle. You claim a Forest Service employee backed out of a parking spot and hit your vehicle.

(b)(6)
Unfortunately, I must deny your claim. There is no evidence that indicated that the Forest Service employees caused your damage. When the incident happened, the driver of the Forest Service vehicle asked your daughter, the driver (b)(6) if he had hit your vehicle. After inspecting your vehicle, she waved the Forest Service employee off. The witnesses, (b)(6) gave inconsistent statements about the accident. He stated the Forest Service vehicle backed into them as they exited the parking lot. Later that day, (b)(6) claimed he was in the restaurant when the accident occurred and didn't see it. Another witness, (b)(6) claimed she saw both vehicles leaving the parking lot yet it is a fact your party remained at the location to contact the police and filed a hit and run report. Paint residue from the Forest Service truck could not be found on the passenger side of your vehicle nor was there paint residue from your vehicle on the Forest Service bumper.

The Federal Tort Claims Act (28 U.S.C. § 2871 et seq.) only provides a remedy to those who suffer personal injury or property damage as a result of a negligent or wrongful act of an employee of the United States. As you have not presented any evidence of negligence or wrongdoing by a government employee, regretfully, I cannot allow your claim.

CLAIMS MANAGEMENT

If you believe this decision is incorrect, you are entitled to address a written request to me for reconsideration of the final denial of this claim. This request must include new information not known to you at the time you filed your original claim. In the alternative, you may file suit in the appropriate Federal District Court not later than six months from the date of this letter, which is the date shown above.

Sincerely,

Patricia Leigh Disert

USDA, Office of the General Counsel

(b)(6)

Enclosed are two tort claims filed relative to property damages sustained in a motor vehicle accident involving Forest Service (FS) employee [redacted] on June 4, 2013, in Taos, New Mexico.

(b)(6)

(b)(6)

The first claim, in the amount of \$991.00, was filed by [redacted] for repairs to her vehicle which includes her \$500.00 deductible. The Albuquerque Service Center received this claim on July 11, 2013.

(b)(6)

(b)(6)

(b)(6)

The second claim, in the amount of \$991.48, was filed by Hartford Insurance Company (Hartford) in behalf of their insured, [redacted] for repairs to her vehicle. This amount includes their insured's \$500 deductible. The Albuquerque Service Center received the subrogation demand on July 24, 2013.

(b)(6)

(b)(6)

BASIS OF CLAIM: According to the enclosed SF-95, Claim for Damage, Injury, or Death, both Hartford and [redacted] allege that on June 4, 2013, a FS vehicle being driven by [redacted] backed into the passenger side of [redacted] 2009 Nissan Altima, which was being driven by [redacted]. As a result of the incident, [redacted] vehicle sustained damage to the front quarter panel on the passenger side. There were no injuries reported at the time of the accident.

(b)(6)

(b)(6)

Hartford provided an itemized receipt for repairs completed in the amount of \$991.98, which includes the \$500.00 deductible paid by [redacted].

(b)(6)

[redacted] has provided a copy of her vehicle registration as proof of ownership for the vehicle. She also provided photos of the damage to her vehicle and proof of payment of the \$500.00 deductible.

STATEMENT OF FACTS: According to the information in the enclosed written statements from the FS driver [redacted] and passenger [redacted], they were authorized to be using a FS vehicle while they attended contracting training. They were traveling from their duty station in El Rito, New Mexico to Taos, New Mexico and return each day to attend training.

(b)(6)

On June 4, 2013, the FS employees went to the local LotaBurger in Taos, New Mexico, for lunch. They drove into the parking lot and into a parking space. The parking lot was rather small and crowded which made it difficult to traditionally back into the parking space. As the FS employees sat out in front to eat their lunch, [redacted] observed the parking lot was very busy and vehicles parked where they could. He observed a goldish colored car was parked nearby *not* in a parking space, but off to the side and the occupants of the car went inside the establishment.

(b)(6) The FS employees finished lunch and returned to the FS vehicle noticing people in the parking lot talking. Both employees got inside the FS vehicle and buckled up. The FS driver, (b)(6) checked the side mirrors, then the rear view mirror and all was clear. The FS vehicle backed out of the parking spot slowly but stopped when he heard a car horn honk. (b)(6) looked in the mirror and could see that he came very close to the passenger side of a car directly behind him. Both FS employees inside the vehicle did not feel an impact. The FS employees did not exit the vehicle, but the driver, (b)(6) rolled his window down because he noticed a man was already looking at the back bumper of the FS vehicle and the passenger side of the car. (b)(6) asked the man if the FS vehicle had hit the car. There was no response. The driver, (b)(6) exited the car and walked over to the passenger side and then got back into the car. (b)(6) asked the man again, if the FS vehicle had hit them. Again, there was no response. (b)(6) exited the vehicle again and walked over to the passenger side of the car. (b)(6) asked (b)(6) if the FS vehicle had hit their car. (b)(6) waved her right hand over her shoulder and said something to the effect, 'it's ok'. Again, (b)(6) asked if she was sure and (b)(6) waved (b)(6) on and got back into the car. The FS employees left the parking lot and went back to their training session; however, (b)(6) did inspect the back bumper on the FS vehicle that afternoon. He couldn't see any transfer of paint from the goldish colored Nissan on the back bumper of the FS vehicle. (Exhibit 3)

The passenger in the FS vehicle, (b)(6) has provided a witness statement which corroborates (b)(6), (b)(7)(C) statement. (b)(6), (b)(7)(C) states that he and (b)(6) were puzzled because neither one of them felt an impact. (Exhibit 4)

(b)(6), (b)(7)(C) The local Taos Police Department was called after the FS vehicle had left the parking lot. (b)(6), (b)(7)(C) was dispatched to a report of a hit and run. (Exhibit 5)

(b)(6), (b)(7)(C) Upon arrival, (b)(6), (b)(7)(C) spoke to (b)(6), (b)(7)(C) who states a green FS truck backed into them as they attempted to exit the parking lot. When (b)(6), (b)(7)(C) showed (b)(6), (b)(7)(C) the damage, it was not consistent with his statement, so (b)(6), (b)(7)(C) asked the other occupants of the vehicle what happened individually. (b)(6), (b)(7)(C) called (b)(6), (b)(7)(C) to assist him with the investigation.

(b)(6), (b)(7)(C) Later that day on June 4, 2013, (b)(6), (b)(7)(C) told Taos (b)(6), (b)(7)(C) that he was inside the LotaBurger when the collision occurred and did not actually see the incident and the FS truck stayed while (b)(6), (b)(7)(C) and the FS driver looked at the damage and they both agreed that they were not going to report the incident.

(b)(6), (b)(7)(C) FS (b)(6), (b)(7)(C) took pictures of the back bumper of the FS vehicle which are enclosed in the file. The pictures do not show any damage or paint transfer on the back bumper of the FS vehicle. (Exhibit 6)

(b)(6), (b)(7)(C) On June 18, 2013, FS (b)(6), (b)(7)(C) attempted to interview (b)(6), (b)(7)(C), but (b)(6), (b)(7)(C) was not very cooperative and left. (b)(6), (b)(7)(C) interviewed (b)(6), (b)(7)(C) and she states that at the time of the accident, she thought her car was not damaged. (Exhibit 7)

(b)(6) (b)(6), (b)(7)(C) interviewed (b)(6), (b)(7)(C) on June 21, 2013, 17 days after the accident. (b)(6), (b)(7)(C) was given this witness' name because she had provided a written statement to (b)(6), (b)(7)(C) (Exhibit 8)

After reviewing the 'estimate' submitted by Hartford for the repairs they paid to fix their insured's vehicle, the estimate appears to list different parts of the vehicle that were not damaged during this incident. This Hartford 'estimate' was provided to (b)(6), (b)(7)(C) to be given to the repair shop fixing her

vehicle. The 'estimate' includes two labor hours plus tax (\$99.53) of repair work to the front bumper which was not damaged during this incident, but the amount is included in the Hartford's claim. (b)(6)

(b)(6) Claims Specialist Patricia Gurule received a call from (b)(6) to inform our office that one of the passengers in the vehicle was injured and might want to file an injury claim. It was explained that the personal property damage claim would be put on hold until all other *potential* claims have been received and this could take up to two years. (b)(6) has called on numerous occasions, is very disrespectful and belligerent, so this particular call was ended. By the end of the day, a fax was received from (b)(6) stating that no personal injury claims would be filed by the occupants in the Nissan. (Exhibits 9-10) (b)(6)

FOREST SERVICE RECOMMENDATION: We believe this claim is cognizable under the Federal Tort Claims Act (FTCA) (28 U.S.C. 1346, 2401, and 2671-2680), and request your review and determination. (b)(6), (b)(7)(C) (b)(6)

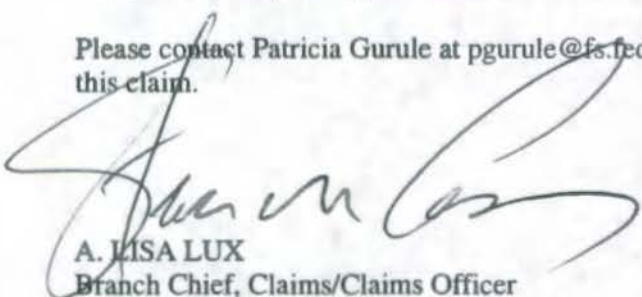

The evidence presented by the owner of the vehicle is uncertain. (b)(6) called the Taos Police Department and (b)(6) responded to an *alleged* hit and run accident, which was not the case. There are different descriptions as to what actually happened. Our office received notification of a personal injury claim from someone other than the 'alleged' injured party, but after we informed the family that we would hold the property damage claim possibly for two years, they quickly sent a letter by fax stating they would not file any personal injury claims. (b)(6) provided a statement to (b)(6) and states that she witnessed both vehicles leave the parking lot. The (b)(6) stayed and called the police. (b)(6), (b)(7)(C) (b)(6)

The FS employees in the vehicle *did not feel* an impact and are adamant they did not hit the Nissan. The FS vehicle does not have any paint transfer on the back bumper. Therefore, we recommend you deny this claim.

However, if you disagree with our recommendation and feel we should pay, then we recommend paying 50% of the claim amounts (\$250.00 deductible and \$245.99 repair costs). If you concur with our recommendation, please sign the enclosed form(s), FS-6500-215, *Voucher for Payment*, for each claimant, and process through your normal procedures.

We do not anticipate any other claims since there were no injuries reported at the time of the accident.

Please contact Patricia Gurule at pgurule@fs.fed.us or (505) 563-7324 if you have questions relative to this claim.

ACCEPTANCE AND RELEASE

I, hereby accept the sum of \$250.00 in full and complete settlement of any and all claims against the United States relating to or arising out of an accident that occurred on June 4, 2013, including, but not limited to, the claim dated June 4, 2013.

By signing this Acceptance and Release, we release and discharge the United States of America, as well as any past and present officials, employees, agents, attorneys, their successors and assigns, from any and all obligations, damages liabilities and demands of any kind and nature whatsoever, whether suspected or unsuspected, at law or in equity, known or unknown, arising out of any and all claims relating to the accident that occurred on June 4, 2013, including any claims for attorney's fees and costs.

This is Full and Final release of all claims arising out of this accident. We understand that we may have sustained damages that are not known at the present. We specifically waive any rights we may have or which may arise regarding personal injury and/or medical damages arising out of this accident that occurred on June 4, 2013.

The acceptance by a claimant of any award, compromise, or settlement is final and conclusive on the claimant, and constitutes a complete release of any claim against the United States and against the government employee whose act or omission gave rise to the claim. 28 U.S.C. 2672.

We will indemnify and hold harmless the United States from any loss, claim, expense, demand, or cause of action of any kind or character through the assertion by any assignee, subrogee, successor, heir or legatee of a claim or claims connected with the subject matter of this release, and from any loss incurred directly or indirectly by reason of the falsity or inaccuracy of any representation made by us.

INSTRUCTIONS

Complete all items - insert the word NONE where applicable

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF

PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO HAVE OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.

Any instructions or information necessary in the preparation of your claim will be furnished, upon request, by the office indicated in Item #1 on the reverse side. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplemental regulations also. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory to the Government is submitted with said claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of the claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file claim for both personal injury and property damage, claim for both must be shown in Item 12 of this form.

The amount claimed should be substantiated by competent evidence as follows:

(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.

(b) In support of claims for damage to property which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damaged, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to completely execute this form or to supply the requested material within two years from the date the allegations accrued may render your claim "invalid". A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.

Failure to specify a sum certain will result in invalid presentation of your claim and may result in forfeiture of your rights.

[redacted] and myself were traveling back and forth to Taos from El Rito the week of June 3-7 2013 to attend COR training using vehicle (b)(6). The forest was sponsoring the training at the Kachina Lodge. Since there was the two of us we had been switching off driving the distance. We had to leave rather early from El Rito to arrive by 8am which was the start of the class each day. On June 4th I had asked [redacted] where he wanted to eat lunch that day and we agreed on Blakes Lotaburger. I agreed to drive to lunch that day. I pulled into the parking lot and parked pulling into a space. Parking lot was rather small and crowded which made it difficult to traditionally back into the space. We ate our lunch at a table outside the front of the establishment facing the parking lot. The parking lot was very busy with cars parking where they could. A goldish colored car was parked nearby not in a parking space but off to the side with 2 women and another person they proceeded to go into the establishment. We finished our lunch and returned to our truck noticing people in the parking lot talking. We got in the truck buckled up. I checked my side mirrors then my rear view mirror and all was clear. I then put the truck in gear and very slowly started to back out of the space when all of a sudden I heard a horn honk. I immediately put my foot on the brake and looked at [redacted] and said where did that car come from? I looked in the mirror and could see I had come very close to the passenger side of a car directly behind me. I did not feel any impact to the car so I pulled forward a bit and the car behind me moved forward. I backed out and pulled forward to the entrance/exit of the parking lot and stopped. I turned and noticed the driver had gotten out to look at the passenger side of the car then proceeded to get back in the car. I'm pretty sure this is the same car I had seen earlier that was parked to the side. I noticed a man studying our truck and looking at the car. I asked him if we hit them since I had not felt the slightest vibration. With no reply I asked the question a couple times with no answer finally the driver of the vehicle got out of the car again and looked at the passenger side of her car, waived her right hand over her shoulder as to say never mind and said something to the effect it's ok. I again asked are you sure and she waived me on and got back into her car. We returned to the training at the motel. Still puzzled by what happened we both looked at the bumper for some indication of contact with the other vehicle and could not find any trace, not even so much as paint that may have rubbed off. I had honestly believed I had not hit the vehicle, the way it just appeared out of nowhere after I had checked my mirrors seemed odd. I remained in Taos the evening of June 6th [redacted] returned home. The next day we returned to the training and [redacted] informed me he was confronted by [redacted] and [redacted] about the incident. After class was out we went to the S.O to met with [redacted] the fleet manager but he had left for the day. We left a note explaining we were there and then preceded back to El Rito. Monday morning June 10th I went into work at Camion and reported the incident to my ranger [redacted]. This is how I remember the incident to the best of my knowledge.

(b)(6)

For the week of June 3, 2013 through June 7, 2013, [redacted] and I were attending a COR training at the Kachina Lodge in Taos, NM. Since both of our duty stations are in Canjilon and we live closer to the El Rito Ranger District office, I decided to ask the forester at the district office if we could borrow a vehicle to commute from El Rito to Taos everyday so we could cut down on drive time to and from the training and reduce exposure to risk. He lent us vehicle [redacted] (b)(6). On the particular day of the incident, June 4, 2013, I had asked [redacted] to drive that day due to the fact that the day before (June 3rd), I had worked until 2400 hours on a fire on the El Rito Ranger District and had to report for work at 0630 hours the following day (June 4th) in order to be in Taos at 0800 hours, the time that our class would begin daily. I was too tired to drive and did not want to risk getting into a vehicle accident, so [redacted] agreed to drive that day. The rest of the week, I drove the vehicle. On that particular day, [redacted] and I decided to go to lunch at a nearby Blake's Lotaburger. We parked in the parking lot facing in, not backed up. We ate our lunch outside, and I noticed a gold car with two women and another person pull up and park to our 11 o'clock and go into Lotaburger as well. When we finished lunch, we returned to the truck. As we were getting in and getting settled and buckled up, I noticed a man and a woman talking in the parking lot to our 10 or 11 o'clock. [redacted] started backing out the truck slowly and I heard a horn honk directly behind us and he immediately applied the brakes and stopped quickly as he was not traveling at a fast rate of speed. I remember [redacted] saying "that car whipped in out of nowhere". I did not feel any impact or anything of that nature, just that the vehicle came to a stop. I saw the man that was at our 10 or 11 o'clock walking towards the vehicle. [redacted] put the vehicle in drive and pulled out towards the entrance/exit of the Lotaburger but stopped and reversed the vehicle because he noticed that the driver had got out of her car to look at the passenger side of the gold car (to the best of my recollection, that was the color of the car) that they were in. I am pretty sure that it was the same gold car I saw earlier while we were eating lunch. Around the same time, the man I had seen to our 10 or 11 o'clock said "hold up" I believe, to [redacted] [redacted] repeatedly asked "did I hit you?" Since I was in the passenger side and my hearing isn't that great, I could not hear much of what the people were saying. I just remember the man studying our truck and looking at the gold car as well as talking to the people that were in the gold vehicle. [redacted] and I were puzzled because neither one of us felt an impact. I thought the people were just looking at the car and checking to see if we had indeed hit their car. I told [redacted] another time "ask if we hit them, make sure". He asked a couple more times and I remember seeing the woman going to get into her car and waving her right hand over her shoulder, as if she was waving us off. [redacted] said that she told him "it was okay", but since I was in the passenger side and my hearing isn't great, I didn't hear any of the conversation between [redacted] and the driver or the other people at the scene. The only parts of the conversation I heard were what [redacted] was saying because I was seated right next to him. No one approached our vehicle. [redacted] said "she said it was okay, she waived us off".

(b)(6)

(b)(6)

The driver got back into her car and Jeff and I proceeded to drive back to the COR class at the Kachina Lodge. Unfortunately, we did not get out of the vehicle to assess damage because we did not feel an impact and we felt that no accident occurred. On the way back to class, I discussed the event with [redacted] and we again came to the conclusion that neither one of us had indeed felt an impact. At the parking lot at the Kachina Lodge, I assessed the rear bumper and did not notice any kind of damage. At the end of the day when class was over, we drove back to the El Rito Ranger District and parked the vehicle. [redacted] went home and I remained at work as we have been working extended hours due to fire danger. After parking the vehicle, I went outside and again assessed the bumper and did not find any damage to the bumper other than normal wear, likely from brush or small trees from driving in the mountains. There were no dents, no evidence of an impact or any "gold" paint on the bumper. I examined the entire bumper for any signs of damage as I had an uneasy feeling about the whole incident. On the evening of Thursday, June 6, 2013, after returning to the El Rito Ranger District from COR training, [redacted] (El Rito Ranger District Engine Captain and Acting District Fleet Manager) and [redacted] (Acting Ranger at the time of the incident) approached me about the incident. I explained to them the entire chain of events and what happened. I told them to feel free to take a look at the truck for damage and to give it a third look. They looked and noticed the same things that I did, which were that there were no dents, no paint or anything else that would indicate an accident occurred, just the normal wear and tear that occurs through mountain driving. I was told that the forest fleet manager was notified of the incident after it occurred. I do not recollect the exact timeline as to when the fleet manager was informed. I was told an individual had come into the Taos Forest Service Supervisor's Office stating that a forest service vehicle had hit a vehicle and had left the scene. I was told by both [redacted] and [redacted] (my supervisor and Canjilon District Ranger) to prepare this statement of the events that occurred on June 4, 2013. This is my best and honest recollection of what occurred on June 4, 2013.

TPD CASE F13000025

Crash Report

(b)(6);(b)(7)(C)

SYNOPSIS:

On June 4, 2013 at approximately 1247 hours, I [redacted] was dispatched to the North Blake's Lotaburger, located at 809 Paseo Del Pueblo Norte in Taos, New Mexico, in reference to a report of a hit and run.

(b)(6)

(b)(6)

Officer's Observations/Actions:

Upon arrival I noticed a Brown 04 Nissan car bearing NM plates [redacted] on the North side of the restaurant. I spoke to one of the passengers named [redacted] who told me that as the vehicle was attempting to exit the parking lot a green Forest Service truck backed into them. The Forest Service truck was parked on the West side of the building and the Nissan was driving North in the parking lot towards the exit.

(b)(6)

(b)(6)

(b)(6)

(b)(6)

[redacted] told me that there was a witness inside of the building. I talked to the witness, [redacted] who told me that the Nissan was driving out of the parking lot and the Green Forest Service truck backed up into the Nissan. She also told me that she had heard that the driver of the Green Forest Service truck was irate inside of the restaurant with some of the employees, and left very upset.

When [redacted] showed me the damage it was not consistent with his statement, because some of the damage was on the bottom of the front bumper on the right side. I then began to ask the occupants of the vehicles what had happened individually. The driver, Ms.

(b)(6)

(b)(6)

[redacted] told me that she was trying to leave the parking lot and the truck was in the 3rd space from the most northern space. One of the passengers, [redacted] told me that the truck was in the 2nd space to the most northern space. [redacted] told me that the truck was in the most northern space.

I then called [redacted] to assist me with the investigation. After [redacted] spoke to [redacted] he found that the only damage from this incident is a small dent above the right front fender.

(b)(6)

Case Disposition:

I attempted to talk to [redacted] who was involved in a motor vehicle collision on June 3, 2013 in the same vehicle. I left a message on his voice mail at work asking him to call me back when he received the message.

(b)(6)

Later the same day [redacted] told Chief [redacted] that he was inside the restaurant when the collision occurred and did not actually see the incident. [redacted] also said that after the collision occurred the Truck did stay and [redacted] looked at the damage with the other driver and agreed that they were not going to report the incident.

(b)(6)

After [redacted] had called Chief, [redacted] had also called but chief told me that she had a completely different statement about the events of that date.

(b)(6)

Due to the fact that the individuals are not telling me the entire truth I attempted to set up a time when [redacted] and [redacted] could come to the Police Dept. so I could ask them a few more questions. I talked to [redacted] on the phone and she did not sound like she wanted to come in but she said she would find a time when she could come in and talk to me.

(b)(6)

[redacted] came into the Taos Police Dept. on June 7, 2013 to speak with me about this incident. During this interview he told me that he saw the Forest Service truck stop and roll his window down after the collision. When the driver did this he raised his arms at James because the driver didn't seem to know what happened.

(b)(6)

(b)(6)

[redacted] also came to the Taos Police Dept. the same day to speak with me. She told me that after the truck had hit her she got out to look at the damage and noticed that the truck had stopped and was looking at her. She then told [redacted] that she was not going to do anything about the collision and gestured the truck that it was O.K. to leave. She told me that after the truck had left she noticed the dent was bigger than she originally thought and decided to call the police.

16. REMARKS

On June 18, 2013 at approximately 1545 [redacted] received a phone call from a [redacted] regarding a vehicle an alleged vehicle collision involving a US Forest Service truck and a vehicle owned by a [redacted]. He asked [redacted] if he could come in and show the car and give me a statement. [redacted] and [redacted] stopped by the Carson National Forest Headquarters office at approximately 1600. [redacted] explained to [redacted] that giving a false statement and trying false claims is a chargeable offence. [redacted] stated "I don't need this fucking shit it's not even my car." [redacted] then got up and started walking out of the office. [redacted] asked if he still wanted to give a statement about the vehicle accident. [redacted] stated no and continued out of the office.

While at Lota Burger in El Prado, NM I observed a Forest Service vehicle parked in the parking lot. I observed an Altima vehicle pull around to the front of Lota Burger. The Forest Service vehicle started to back out of the parking space he was in and I observed him back into the Altima front ~~driver's~~ passenger panel. I observed the panel crinkle. The Forest Service vehicle stopped and "some" communication, unknown to me, then I observed both vehicles leave the scene.

| SUMMARY: The ASC Contact Center rec'd a call from [REDACTED] His mother or Aunt was involved in an accident with a FS vehicle in Taos, NM. [REDACTED] is calling to harass us to process the claim. [REDACTED] is not owner of the vehicle and he was told that we can't speak to him because he is not the owner of the car. He mentioned that his friend, a passenger in the car was hurt and that he was going to file a claim. I told him then we would hold the property damage claim until we received the personal injury claim. I tried to explain that our regulations make us hold all the claims until we are certain we have received all claims related to the accident. He refused to believe what I was telling him, he insisted on speaking with my supervisor so I transferred him. He was belligerent and argumentative with my supervisor, he was told that since he was not the owner of the car, not to call back. We sent an email to [REDACTED] in Taos, NM to inform him of [REDACTED] harassment. We also notified the ASC Contact Center to refer [REDACTED] phone calls to LEI [REDACTED] work number - [REDACTED] Number was provided. I also notified the RO, LEI of the events since they assisted with getting the Police report from [REDACTED] on 7/26/13. | | | |

Potential Claim Against the Government.

This is to notify you that we have received a POTENTIAL claim against the government at the Albuquerque Service Center Claims Branch. This claim will be located in our Potential claims drawer at ASC Claims, until we have received the SF-95 claims form. If the claimant contacts you in regards to filing a claim please have them call our office here at ASC Claims, toll free number # 1-877-372-7248. We will advise them on the proper procedures for filing claims under the Federal Tort Claims Act or "FTCA" guidelines.

Dear [redacted]

Enclosed please find the SF-95, Claim for Damage, Injury, or Death (SF-95) for filing a tort claim against the Forest Service. It must be completed and returned to us before your claim can be processed. Your claim will be processed under the Federal Tort Claims Act (FTCA). Two copies of the Claim for Damage, Injury, or Death Form (SF-95) are enclosed for your use. Please complete and submit one copy of the form. **Please follow the instructions on the reverse of the SF-95 in filing your claim.**

Please note that all parties listed as owners on the title/registration must be identified as claimants and must sign the claim in the "signature of claimant" block. Please send a copy of your title/registration with your claim form. Claims for personal injury may be filed only by the injured party, or a representative who has been authorized by the injured party, *in writing*, to represent them in their personal injury claim.

A claim may be filed by your insurance company for the exact amount of payments made to you, or on your behalf, as a result of this accident. You may file a separate claim for damages you sustained which are not reimbursed by your insurer (such as your deductible). As an alternative, you and your insurer may file a joint claim. Note that if your insurance company files a claim on your behalf for your deductible, they need to provide written documentation from you authorizing them to represent you in your claim for your deductible.

FTCA requires that a claim be filed for a specific total amount. **Complete block 12d.**

Please mail the completed form, with supporting documentation, to the attention of the Claims Branch at the address above. You have two years from the date of the incident to submit your claim. Should you have questions about the claims process, contact the ASC Claims Branch at 1-877-372-7248 and ask to be transferred to the Claims Branch.

Gentlemen: In this afternoon's mail, I received a fax, a handwritten note from (b)(6) asking for me to 'process her claim and no injury claims will be filed by (b)(6). There is no mention of (b)(6). So before we actual process this claim, I am seeking advice from OGC to see if I can process the claim and make all parties sign a Release that they will accept what OGC offers as full and final settlement. I just want to get this one out of our office as quickly as possible.

Angelo: I will need a jobcode for the total amount of \$991.98. Thanks!! Pat

(b)(6) Hello [redacted] and [redacted] I'm sharing an email that I sent to the insurance company as well as a Conversation Record that I made part of my file after this morning's call with [redacted] Apparently, there is another individual that was supposedly injured from this accident.

(b)(6), (b)(7)(C) Each time I speak to [redacted] he gives a different account of the accident. This morning he states that we wasn't inside the car when it was hit, although he told the Taos Police Dept that he was.

(b)(6) Nonetheless, our regulations dictate that when we have been notified that there is a potential claim, we are to hold any claims as a result of ONE incident until all claims have been received and can be forwarded to OGC in ONE package. We have to hold until we receive all potential claims OR the statute of limitation runs which is two years from the date of the accident or June 4, 2015. [redacted] then insisted we process the property damage claim, at which time I transferred the call to my supervisor, Steven Casey. So I am holding [redacted] claim. I have notified the Hartford Insurance Company that their subrogation claim is being held for a possible injury claim and stated how long we will have to hold it. (b)(6)

Hello [redacted] We are in receipt of your documentation you submitted last Friday. (b)(6) Hello All,

I'm forwarding this message to you for several reasons.

First and foremost is the potential for office violence. A [redacted] here from Taos alleges our employees backed up into her car and she filed a claim against the Government. A relative or other of hers, [redacted] has been calling the ASC claims staff, and from what I understand, has yelled & cussed, and his behavior has them concerned.

Thus, should this [redacted] come into the office, there may be potential for odd behavior or violence. Do not confront him. I don't have an answer as to how this situation should be dealt with, but I just want to be sure our employees are aware, for their own safety.

(b)(6)  
Hi Clarence. Thanks for the pictures.

(b)(6), (b)(7)(C) Angelo (b)(6) On some of my other vehicle accident claims when there are questions about the impact, the FS employees measured the height of the FS vehicle bumper and then measure the dent in the vehicle to see if they match. Did anyone measure these and do you think measuring could clear up any uncertainties or should we just process as is. Right now, it's a 'he said, she said', so we will let OGC make the determination. Let me know what the Forest decides. Maybe (b)(6) can assist with this. I would hate to see us pay for damage that we didn't cause. Anything less than \$2,500.00 comes out of the forest budget and right now the repairs are \$991.98. (b)(6)

(b)(6) I have encountered firsthand the behavior of (b)(6) and since he is not the owner of the car, no one should have any contact with him. We only deal with the owner and since (b)(6) is elderly, (b)(6) her niece and driver of the car during the accident, can assist (b)(6) with her claim. Thanks. Pat

Hi Lynda. We just received a phone call from [REDACTED] and we want to ask the Contact Center that if he calls again to please give him [REDACTED] work number at the Carson National Forest in Taos, NM, [REDACTED]. He is calling just to complain and harass us because of the vehicle accident his [REDACTED] was involved with a FS vehicle.

He is not the owner of the vehicle so LEGALLY we should not be entertaining any of his phone calls. If you have any questions, please let us know! Thank you! Pat

(b)(6) Hi Clarence. Can you send me what you have on this accident involving (b)(6) I have been trying to get some information from her and her family since our office didn't have any knowledge of the accident. All the claimants do is yell obscenities and call us idiots. Our office does not want to deal with them anymore, but I do want to get (b)(6) claim to OGC as soon as possible. (b)(6) is elderly and is not the one acting very unprofessional by yelling obscenities every time they call me. I'm looking for the SF-91 from the FS driver and the police report. Thank you!! Pat

Angelo. I can't find anything in our files. I've looked all morning...that's why I called the claimants. Thanks. Pat

(b)(6) Hi Pat, I got your phone call and e-mail. I mean to call but have been swamped.

I sent this to asc claims on 6/24. (b)(6) is the contact, although our Fleet Manager (b)(6) probably has all the reports/documentation.

Subject: Claim for Property Damage, June 4, 2013, Carson National Forest, El Rito Ranger District; Your claimant (b)(6) Account # (b)(6)

(b)(6)  
Dear (b)(6),

(b)(6)  
I have reviewed your claim in the amount of \$991.98 for personal damage to your claimant Ms. (b)(6) vehicle. (b)(6) claims a Forest Service employee backed out of a parking spot and hit her vehicle.

(b)(6)  
(b)(6)  
(b)(6)  
Unfortunately, I must deny your claim. There is no evidence that indicated that the Forest Service employees caused the damage. When the incident happened, the driver of the Forest Service vehicle asked the driver (b)(6) the daughter of your claimant, if he had hit the vehicle. After inspecting the vehicle, (b)(6) waved the Forest Service employee off. Your claimants witness (b)(6) gave inconsistent statements about the accident. He stated the Forest Service vehicle backed into them as they exited the parking lot. Later that day, (b)(6) claimed he was in the restaurant when the accident occurred and didn't see it. Another witness, (b)(6) claimed she saw both vehicles leaving the parking lot. That witness statement is not consistent with the actual event. The (b)(6) party remained at the location to contact the Taos police and filed a hit and run report. Paint residue from the Forest Service truck could not be found on the passenger side of (b)(6) vehicle nor was there paint residue from (b)(6) vehicle on the Forest Service bumper.

The Federal Tort Claims Act (28 U.S.C. § 2871 et seq.) only provides a remedy to those who suffer personal injury or property damage as a result of a negligent or wrongful act of an employee of the United States. As you have not presented any evidence of negligence or wrongdoing by a government employee, regrestfully, I cannot allow your claim.

(b)(6)

Enclosed are two tort claims filed relative to property damages sustained in a motor vehicle accident involving Forest Service (FS) employee [redacted] on June 4, 2013, in Taos, New Mexico.

(b)(6)

(b)(6)

The first claim, in the amount of \$991.00, was filed by [redacted] for repairs to her vehicle which includes her \$500.00 deductible. The Albuquerque Service Center received this claim on July 11, 2013.

(b)(6)

The second claim, in the amount of \$991.48, was filed by Hartford Insurance Company (Hartford) in behalf of their insured, [redacted] for repairs to her vehicle. This amount includes their insured's \$500 deductible. The Albuquerque Service Center received the subrogation demand on July 24, 2013.

(b)(6)

(b)(6)

**BASIS OF CLAIM:** According to the enclosed SF-95, Claim for Damage, Injury, or Death, both Hartford and [redacted] allege that on June 4, 2013, a FS vehicle being driven by [redacted] backed into the passenger side of [redacted] 2009 Nissan Altima, which was being driven by [redacted]. As a result of the incident, [redacted] vehicle sustained damage to the front quarter panel on the passenger side. There were no injuries reported at the time of the accident.

(b)(6)

(b)(6)

(b)(6)

(b)(6)

Hartford provided an itemized receipt for repairs completed in the amount of \$991.98, which includes the \$500.00 deductible paid by [redacted].

(b)(8)

[redacted] has provided a copy of her vehicle registration as proof of ownership for the vehicle. She also provided photos of the damage to her vehicle and proof of payment of the \$500.00 deductible.

**STATEMENT OF FACTS:** According to the information in the enclosed written statements from the FS driver [redacted] and passenger [redacted], they were authorized to be using a FS vehicle while they attended contracting training. They were traveling from their duty station in El Rito, New Mexico to Taos, New Mexico and return each day to attend training.

(b)(6)

On June 4, 2013, the FS employees went to the local LotaBurger in Taos, New Mexico, for lunch. They drove into the parking lot and into a parking space. The parking lot was rather small and crowded which made it difficult to traditionally back into the parking space. As the FS employees sat out in front to eat their lunch, [redacted] observed the parking lot was very busy and vehicles parked where they could. He observed a goldish colored car was parked nearby *not* in a parking space, but off to the side and the occupants of the car went inside the establishment.

(b)(6) The FS employees finished lunch and returned to the FS vehicle noticing people in the parking lot talking. Both employees got inside the FS vehicle and buckled up. The FS driver, [redacted] checked the side mirrors, then the rear view mirror and all was clear. The FS vehicle backed out of the parking spot slowly but stopped when he heard a car horn honk. [redacted] looked in the mirror and could see that he came very close to the passenger side of a car directly behind him. Both FS employees inside the vehicle did not feel an impact. The FS employees did not exit the vehicle, but the driver, [redacted] rolled his window down because he noticed a man was already looking at the back bumper of the FS vehicle and the passenger side of the car. [redacted] asked the man if the FS vehicle had hit the car. There was no response. The driver, [redacted] exited the car and walked over to the passenger side and then got back into the car. [redacted] asked the man again, if the FS vehicle had hit them. Again, there was no response. [redacted] exited the vehicle again and walked over to the passenger side of the car. [redacted] asked [redacted] if the FS vehicle had hit their car. [redacted] waived her right hand over her shoulder and said something to the effect, 'it's ok'. Again, [redacted] asked if she was sure and [redacted] waved on and got back into the car. The FS employees left the parking lot and went back to their training session; however, [redacted] did inspect the back bumper on the FS vehicle that afternoon. He couldn't see any transfer of paint from the goldish colored Nissan on the back bumper of the FS vehicle. (Exhibit 3)

The passenger in the FS vehicle, [redacted] has provided a witness statement which corroborates [redacted] statement. [redacted] states that he and [redacted] were puzzled because neither one of them felt an impact. (Exhibit 4)

(b)(6);(b)(7)(C) The local Taos Police Department was called after the FS vehicle had left the parking lot. [redacted] was dispatched to a report of a hit and run. (Exhibit 5)

(b)(6);(b)(7)(C) Upon arrival, [redacted] spoke to [redacted] who states a green FS truck backed into them as they attempted to exit the parking lot. When [redacted] showed [redacted] the damage, it was not consistent with his statement, so [redacted] asked the other occupants of the vehicle what happened individually. [redacted] called [redacted] to assist him with the investigation.

(b)(6);(b)(7)(C) Later that day on June 4, 2013, [redacted] told Taos [redacted] that he was inside the Burger when the collision occurred and did not actually see the incident and the FS truck stayed while [redacted] and the FS driver looked at the damage and they both agreed that they were not going to report the incident.

(b)(6);(b)(7)(C) FS [redacted] took pictures of the back bumper of the FS vehicle which are enclosed in the file. The pictures do not show any damage or paint transfer on the back bumper of the FS vehicle. (Exhibit 6)

(b)(6);(b)(7)(C) On June 18, 2013, FS [redacted] attempted to interview [redacted], but [redacted] was not very cooperative and left. [redacted] interviewed [redacted] and she states that at the time of the accident, she thought her car was not damaged. (Exhibit 7)

(b)(6) [redacted] interviewed [redacted] on June 21, 2013, 17 days after the accident. [redacted] was given this witness' name because she had provided a written statement to [redacted] (Exhibit 8)

After reviewing the 'estimate' submitted by Hartford for the repairs they paid to fix their insured's vehicle, the estimate appears to list different parts of the vehicle that were not damaged during this incident. This Hartford 'estimate' was provided to [redacted] to be given to the repair shop fixing her

vehicle. The 'estimate' includes two labor hours plus tax (\$99.53) of repair work to the front bumper which was not damaged during this incident, but the amount is included in the Hartford's claim. (b)(6)

(b)(6) Claims Specialist Patricia Gurule received a call from (b)(6) to inform our office that one of the passengers in the vehicle was injured and might want to file an injury claim. It was explained that the personal property damage claim would be put on hold until all other potential claims have been received and this could take up to two years. (b)(6) has called on numerous occasions, is very disrespectful and belligerent, so this particular call was ended. By the end of the day, a fax was received from (b)(6) stating that no personal injury claims would be filed by the occupants in the Nissan. (Exhibits 9-10) (b)(6)

**FOREST SERVICE RECOMMENDATION:** We believe this claim is cognizable under the Federal Tort Claims Act (FTCA) (28 U.S.C. 1346, 2401, and 2671-2680), and request your review and determination. (b)(6), (b)(7)(C) (b)(6)

The evidence presented by the owner of the vehicle is uncertain. (b)(6) called the Taos Police Department and (b)(6) responded to an *alleged* hit and run accident, which was not the case. There are different descriptions as to what actually happened. Our office received notification of a personal injury claim from someone other than the 'alleged' injured party, but after we informed the family that we would hold the property damage claim possibly for two years, they quickly sent a letter by fax stating they would not file any personal injury claims. (b)(6) provided a statement to (b)(6) and states that she witnessed both vehicles leave the parking lot. (b)(6) stayed and called the police. (b)(6), (b)(7)(C) (b)(6)

The FS employees in the vehicle *did not feel* an impact and are adamant they did not hit the Nissan. The FS vehicle does not have any paint transfer on the back bumper. Therefore, we recommend you deny this claim.

However, if you disagree with our recommendation and feel we should pay, then we recommend paying 50% of the claim amounts (\$250.00 deductible and \$245.99 repair costs). If you concur with our recommendation, please sign the enclosed form(s), FS-6500-215, *Voucher for Payment*, for each claimant, and process through your normal procedures.

We do not anticipate any other claims since there were no injuries reported at the time of the accident.

Please contact Patricia Gurule at pgurule@fs.fed.us or (505) 563-7324 if you have questions relative to this claim.

## ACCEPTANCE AND RELEASE

We, Hartford Insurance Company, hereby accept the sum of \$245.99 in full and complete settlement of any and all claims against the United States relating to or arising out of an accident that occurred on June 4, 2013, including, but not limited to, the claim dated June 4, 2013.

By signing this Acceptance and Release, we release and discharge the United States of America, as well as any past and present officials, employees, agents, attorneys, their successors and assigns, from any and all obligations, damages liabilities and demands of any kind and nature whatsoever, whether suspected or unsuspected, at law or in equity, known or unknown, arising out of any and all claims relating to the accident that occurred on June 4, 2013, including any claims for attorney's fees and costs.

This is Full and Final release of all claims arising out of this accident. We understand that we may have sustained damages that are not known at the present. We specifically waive any rights we may have or which may arise regarding personal injury and/or medical damages arising out of this accident that occurred on June 4, 2013.

*The acceptance by a claimant of any award, compromise, or settlement is final and conclusive on the claimant, and constitutes a complete release of any claim against the United States and against the government employee whose act or omission gave rise to the claim. 28 U.S.C. 2672.*

We will indemnify and hold harmless the United States from any loss, claim, expense, demand, or cause of action of any kind or character through the assertion by any assignee, subrogee, successor, heir or legatee of a claim or claims connected with the subject matter of this release, and from any loss incurred directly or indirectly by reason of the falsity or inaccuracy of any representation made by us.

Hello [REDACTED] We are in receipt of your documentation you submitted last Friday. We had a phone call this morning from one of the individuals [REDACTED] that was a passenger in the vehicle and he states that another passenger [REDACTED] was injured and said something about filing a claim against the Forest Service. Our regulations dictate that we hold any claim until we receive all other potential claims and forward as ONE package to the attorney at our Office of the General Counsel to make a determination. Therefore, we will be holding your property damage subrogation claim until we receive the potential injury claim or the statute of limitations runs which is two years from the date of the incident (6/4/2015).

Should you have any questions, please reply to this email. Thank you!! Pat

| <p>Claims presented under Federal Tort Claims Act should be submitted directly to the "appropriate Federal agency" whose employee(s) was involved in the incident. If the incident involved more than one claimant, each claimant should submit a separate claim form.</p> <p style="text-align: center; margin-top: 10px;">Complete all items - Insert the word NONE where applicable.</p> <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <p>A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE, AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY.</p> <p>Failure to completely execute this form to supply the requested material within two years from the date the claim accrued may render your claim invalid. A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.</p> <p>If instruction is needed in completing this form, the agency listed in Item #1 on the reverse side may be contacted. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplementing regulations. If more than one agency is involved, please state each agency.</p> <p>The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory for the Government is submitted with the claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.</p> <p>If claimant intends to file for both personal injury and property damage, the amount for each must be shown in Item #12 of this form.</p> </div> <div style="width: 45%;"> <p>DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.</p> <p>The amount claimed should be substantiated by competent evidence as follows:</p> <p>(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.</p> <p>(b) In support of claims for damage to property, which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.</p> <p>(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damage, or by two or more competitive bidders, and should be certified as being just and correct.</p> <p>(d) Failure to specify a sum certain will render your claim invalid and may result in forfeiture of your rights.</p> </div> </div> |                                                                                                 |

Hello Patricia,

(b)(6)  
I will document my file accordingly. I can tell you that no one involved in our vehicle has claimed any injuries. We have nothing open at all about that. I will forward out 30 days and follow up at that point to see if you have heard anymore about the injuries or if we have opened up an injury file on our end. Thank you so much,

(b)(6)  
Hello (b)(6) We are in receipt of your documentation you submitted last Friday. We had a phone call this morning from one of the individuals (b)(6) that was a passenger in the vehicle and he states that another passenger (b)(6) was injured and said something about filing a claim against the Forest Service. Our regulations dictate that we hold any claim until we receive all other potential claims and forward as ONE package to the attorney at our Office of the General Counsel to make a determination. Therefore, we will be holding your property damage subrogation claim until we receive the potential injury claim or the statute of limitations runs which is two years from the date of the incident (6/4/2015).

Should you have any questions, please reply to this email. Thank you!! Pat

Hi James,

I will check with LE re the possibility of getting this report. (In reviewing the EMNRD Forestry Division LE Supplemental Narrative Report, I'm not sure who Mr. Mahoney's report was prepared for – it may have been a private entity but will see what I can find out and keep you posted.)

Thanks Loredia,

I did not have any problem looking at the images or reviewing the documents.

Would it be possible to see the report created by Mr. Michael Mahoney? He was listed in the law enforcement report from NM state forestry as taking pictures and writing a report. He was also listed as being a consulting arborist/urban forester. His report would likely be the most detailed and informative. The images included in the folder were "ok" but it might be beneficial to see the actual roots (I'm guessing there aren't any) of the aspen that fell and not the apparently healthy trunk.

Thanks in advance.

Hi

I have a favor to ask; is it possible to have one of your officers attend a meeting being sponsored by the Branch Law Firm for the Las Conchas Fire Victims? The meeting is scheduled to be held on Saturday, November 19, 2011 from 10:00a to 1:00pm the Los Alamos Holiday Inn Express; 60 Entrada Drive (Main Hill Road), Los Alamos, NM (see attached advertisement that was in today's paper).

This particular law firm has filed a FOIA request and I anticipate the agency may be hit with tort claims related to this fire. Any assistance your officers can provide is appreciated.

I received your message that you are inquiring about your claim against the government. At this time your claim is being held in abeyance. I have attached a letter that I sent to (b)(6) of Progressive on May 7, 2015. We have to hold your claim open until all claims for this incident have been received and can be reviewed by the Office of General Counsel (OGC) together as one incident. In your incident there were two vehicles involved, we must keep the claim open until we receive all claims related to this incident or until the statute of limitations has expired, whichever comes first.

I am the claims examiner working on the claim against the government. I will require more information before I am able to process this claim for [redacted] and [redacted] (b)(6)

1. I had attached 2 SF-91's, one for each vehicle that was hit. On page 3 of each SF-91, I need to know from the driver/supervisor was [redacted] within the scope of duty when the accident happened?

(b)(6)

2. The attached witness statement doesn't say who the witness was, please elaborate.

3. On the SF-91 it states that [redacted] witnessed the accident, we will need a statement from him.

We need more information on whether [redacted] was within the scope of his duty since he was in a parking lot of a shopping center.

Hi [REDACTED],

The following responds to your inquiry:

Re Q1: In our October 28, 2014, letter to you, we advised that Departmental policy requires that all claims arising from a single occurrence be held in abeyance until the full extent of the claims is known before adjudicating. (According to the provisions of the Federal Tort Claims Act (FTCA), claimants have up to two years to file a claim against the government.) We also advised that the agency anticipates receipt of more claims prior to the expiration of the two-year statute of limitations under the FTCA.

The purpose of the Department's policy is to ensure the claim(s) are sent to the appropriate Office of the General Counsel (OGC) delegated the authority to adjudicate.

Thus, although we have begun the initial process of gathering agency regulations, policy, and procedures applicable to the 2014 Diego Fire, we have not documented the agency's actions in this matter or sent to OGC for determination. Once we have received and reviewed all claims associated with the Diego Fire and documented the agency's actions, we will submit the claims to OGC.

Re Q2: Your address has been updated in our files.

Regarding your claim: I have reviewed the supporting information you submitted via email on January 12, 2015, and it appears the amount on the supporting documentation differs from the amount on the SF-95. Please advise if the amount on the supporting documentation amends the amount recorded on the SF-95. An email response is sufficient.

Thank you for your patience as we work through our claims process. Feel free to contact me if you have questions or need additional information.

Loredia

Hi Denise,

I was calling in regards to any re-construction efforts that have taken place or if any are planned to repair FR #268 and #89, which used to provide access into Bland and Cochiti canyons. There are several private land owners on the Santa Fe forest back there, kind of a unique situation. Well of course in the Las Conchas fire it burned, flooded and then eroded terribly. I did a story about this last fall I believe, and at that time the people were told access to those canyons is closed and will be for the foreseeable future. Has any work been done to make progress on this situation? There was talk about a possible land swap, some property owners wanted to be able to pay for and do their own road building as some of them had considerable financial means. I want to do a follow up on this story. Thanks for any help,

Eric Green

Hi Eric. I understand you are inquiring about some issues related to the Las Conchas fire and have contacted one of our employees for information. I'd like to help you with your inquiry. Can you please send me a list of questions so I can provide you with the proper response. Are you working on a story about a particular topic? What type of angle are you hoping for with your story? Thanks!

So I gotta admit, I don't know what an ROI is. But I sense this is going to be a critical element to address, because of its relationship to where the tree was located. We were fortunate in that our Lands Surveyor at the time (b)(6) - now Regional Surveyor) recognized a critical need, and formally surveyed the location of the powerline, Special Use Permit width, private/public boundary line, and the actual location of the tree that fell. He's a fully licensed surveyor, with tremendous expertise - including in court during a title claim litigation case. He made the plat specifically for Law Enforcement, so that it could be presented in court so as to clearly illustrate the matters at hand. I can assure you without hesitation that the tree was located on private land - that's where the stump was, where it had been growing. The details associated with this, plus the plat, plus the interpretation of SUP terms and conditions, will be what we collectively need to provide you. The survey plat makes for very compelling evidence, in my opinion. I can't seem to put my hands on a hard or email copy right this moment, and our surveyors are in the field. But I will work on getting one in anticipation of questions to come.

Thanks again for all your help.

Hi Roger,

As promised, here is an advance copy of the allegations of negligence purported by the claimants in the Las Conchas matter. (According to the attached, the tree that fell on the power lines was located on private property; however, the ROI indicates this tree was on NFS lands...)

Will keep you in the loop when I began working on the agency's response to the allegations. As mentioned during our telecon, I generally send an email to the FS for assistance in identifying the experts on his staff that can assist with the case. This way the FS is in the loop.

Thanks again for contacting me on this. Let me know if you have further questions

Good afternoon, I received a message that you called today 5/4/2015. I am the claims examiner working on this claim involving your insured (b)(6) claim # 15-1704840. I am in the process of generating a letter to go out to you this week. This incident involves two vehicles and a forest service vehicle. Per Departmental policy all claims that arise from a single occurrence will not be adjudicated until the full extent of the claims on a particular incident are known, or until the two year statute of limitation expires. This claim will be held in abeyance until we receive all claims arising from this occurrence.

If you have any questions about the claims processes please don't hesitate to call or email me. Thank you

Hi Roger,

During our teleconference, you mentioned the survey that was done in November as well as the SUP analysis. Would you provide these documents to us – thanks much,

Loredia.

Instructions for calculating Estimated Tax (NMSA 7-38-20): The calculation of an estimated property tax may be higher or lower than the property tax that will actually be imposed. Tax rates are determined by the Department of Finance and Administration no later than September 1st. RES Estimated Tax may be calculated by multiplying the Current Year's RES Net Taxable Value by the (Previous Year's RES Tax Rate divided by 1,000). NRES Estimated Tax may be calculated by multiplying the Current Year's NRES Taxable Value by the (Previous Year's NRES Tax Rate divided by 1,000). Combine both RES and NRES totals for Total Current Year's Estimated Tax. If applicable.  
Example: RES Estimated Tax = \$45,000 RES Net Taxable Value x .035 (35,000 RES Tax Rate divided by 1,000) = \$1,575  
NRES Estimated Tax = \$2,500 NRES Net Taxable Value x .025 (25,000 NRES Tax Rate divided by 1,000) = \$62.50  
Total Current Year's Estimated Tax = \$1,575 RES Estimated Tax + \$62.50 NRES Estimated Tax  
"FULL VALUE" MEANS THE VALUE DETERMINED FOR PROPERTY TAXATION PURPOSES. "TAXABLE VALUE" IS 33 1/3% OF "FULL VALUE." "NET TAXABLE VALUE" IS "TAXABLE VALUE" LESS EXEMPTIONS THE VALUE UPON WHICH TAX IS IMPOSED.

TO DETACH, TEAR ALONG PERFORATION.

## REQUEST FOR A BILL FOR COLLECTION

**Note to Receivables and Collections:** Please create a billing document in FFIS using the following information. Once the Bill for Collection has been generated, please do the following:

- Date stamp the enclosed demand letter with the same date as the "Bill Date" as shown on the Bill for Collection and mail it, along with the billing, to the debtor.
- Send the ASC Claims Specialist a copy of the dated demand letter and Bill for Collection.
- If a valid claims debt involves fire suppression costs, please create the billing as a refund to the P code assigned to the incident (BD/RF).

Hi Loredia!

The U.S. Attorney's office has declined to take the case against [REDACTED] Dripping Springs Fire, based on the unlikely possibility of recovering any portion of the debt. You can close the case on your end, and send it over to Treasury for collection.

Subject: Claim for Property Damage, \$1,196.26; October 6, 2015; Southwest Region,  
Carson National Forest

Dear (b)(6)

The claim you filed for property damage occurring, October 6, 2015, has been approved for payment in the amount of \$1,196.26. This represents the lower of the two estimates you provided. Enclosed is the *Voucher for Payment* for your claim. We ask that you please complete the following:

1. Please verify that your mailing address in Block 3 is correct.
2. Please provide Claimant Electronic Funds Transfer Information in Block 4.
3. Please provide Taxpayer Identification Number/Social Security Number in block 5..
4. Please sign and date the Voucher in Block 6.

Upon your completion of the above, please send the completed *Voucher for Payment* to the attention of Austin Gonzagowski at 101B Sun Avenue NE; Albuquerque, NM 87109. If you have questions about the voucher, please call Austin Gonzagowski at 505-563-7671 or 1-877-372-7248. Payment will be made by the appropriate Forest Service personnel following our receipt of the executed *Voucher for Payment*.

This is the final administrative action and claim relating to the above incident. If you disagree with my decision, you must begin an action in the appropriate Federal District Court not later than six months from the date of this letter (the date shown above). See 28 .S.C. §2401(b).

Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Patricia Leigh Disert". The signature is written in a cursive, flowing style.

**Subject:** Tort - (b)(6) Property Damage; \$1,196.26; October 6, 2015; Southwest Region, Carson National Forest, Camino Real Ranger District

**To:** Kenneth D. Paur, Deputy Regional Attorney  
USDA – Office of the General Counsel

(b)(6)  
Enclosed is a tort claim filed relative to property damage sustained during a vehicle accident that occurred on October 6, 2015. The claim, in the amount of \$1,196.26, was submitted by (b)(6) for damages to his vehicle. The Albuquerque Service Center received the duly filed on November 6, 2015. (b)(6)

(b)(6)  
**BASIS OF CLAIM:** On October 6, 2015, (b)(6) alleges that while loading material into his vehicle at the Forest Service (FS) Penasco yard, FS employee (b)(6) backed into his vehicle, damaging the right side of his 1999 Dodge pick-up truck. (b)(6)

(b)(6)  
(b)(6) provided a State of New Mexico Motor Vehicle Division Certificate of Vehicle Registration, and two estimates for repairs, one from (b)(6) Collision Center in the amount of \$1,671.75, and another from (b)(6) Automotive in the amount of \$1,196.26. (b)(6)

(b)(6)  
**STATEMENT OF FACTS:** According to the SF-91, *Motor Vehicle Accident Report*, FS employee (b)(6) was parked at the Penasco boneyard, located on the Camino Real Ranger District, to provide materials to permittees for range improvement on the Rio Chiquito allotment. (b)(6) pulled into the yard and parked behind (b)(6) FS vehicle. Both (b)(6) and (b)(6) discussed what lumber and materials would be loaded before (b)(6) re-entered his vehicle to depart the area. While reversing the FS vehicle, (b)(6) inadvertently backed into (b)(6) vehicle, damaging the right headlight and grill. (b)(6)

(b)(6)  
According to the Notification of Incident Potential Claim Against the Government provided by (b)(6), (b)(6) stated: (b)(6)

(b)(6)  
“While loading some supplies for grazing permittee (b)(6) I pulled into the yard and he pulled in right behind me pulling a gooseneck trailer. When I backed out to leave I hit the front of his truck, breaking his right headlight and grill and putting a dent on my FS vehicle tailgate. This happened at approx. 10 am. The boneyard was crowded with CNM transport and backhoe and other materials.” (b)(6)

(b)(6)  
Rangeland Management Specialist (b)(6) had travelled to the Penasco boneyard to provide materials to permittees for range improvement operations when the incident occurred. The trip was made during (b)(6) established work hours. (b)(6) did not deviate from his direct route, nor did he engage in any unauthorized activities. Therefore, his supervisor, (b)(6)

District Ranger [REDACTED] considered him to be acting within the scope of his employment at the time of the incident.

(b)(6) **FOREST SERVICE RECOMMENDATION:** We believe this claim is cognizable under the Federal Tort Claims Act (FTCA) (28 U.S.C. 1346, 2401, and 2671-2680), and request your review and determination. (b)(6)

We believe [REDACTED] had a duty to operate the vehicle he was driving in a safe and reasonable manner pursuant to FSH 6709.11, Chapter 10, 12.4(6). [REDACTED] failed to operate his vehicle in such a manner which resulted in the claimant's damages. Therefore, we recommend approval of this claim in the amount of \$1,196.26, which represents the lowest amount of the two estimates provided.

(b)(6) If you concur with this recommendation, please sign the enclosed FS form FS-6500-215, *Voucher for Payment*, and process through your normal procedures.

We do not anticipate any other claims relative to this incident because there were no personal injuries reported and [REDACTED] did not file a claim with his insurance provider.

Please contact Claims Specialist Austin Gonzagowski at 505-563-7671 if you have questions relative to this claim. Please reference claim number 2016030005-001 when inquiring about your claim.

I parked my truck and pulled in behind me on truck to load up lumber for use on a project. We discussed what he would load then I got on my truck to try to back out and leave to continue my duties. While backing up I was too close and hit him while backing. My tailgate got dented and my ramps to my loaded ATV broke his headlamp and grill.

## INSTRUCTIONS

Claims presented under Federal Tort Claims Act should be submitted directly to the "appropriate Federal agency" whose employee(s) was involved in the incident. If the incident involved more than one claimant, each claimant should submit a separate claim form.

Complete all items - Insert the word NONE where applicable.

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE, AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY.

Failure to completely execute this form to supply the requested material within two years from the date the claim accrued may render your claim invalid. A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.

If instruction is needed in completing this form, the agency listed in item #1 on the reverse side may be contacted. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplementing regulations. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory for the Government is submitted with the claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file for both personal injury and property damage, the amount for each must be shown in item #12 of this form.

DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.

The amount claimed should be substantiated by competent evidence as follows:

(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.

(b) In support of claims for damage to property, which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damage, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to specify a sum certain will render your claim invalid and may result in forfeiture of your rights.

This damage report is based upon our detailed inspection of your vehicle and does not include repairs other than itemized above. Occasionally, additional damage will be discovered once the work is opened up and additional repairs will be required.

Repairs will be made for you as owner. If you do not intend to pay with your own funds, please make certain the insurance company can deliver their check to you in time to pick up your vehicle. All repairs must be paid in full before the vehicle will be released.

If a lienholder is named on the insurance check, their endorsement must be obtained.

We are proud of our technicians and their superior quality craftsmanship. Thank you for letting us serve you.

While loading some supplies for a grazing permittee [redacted] i pulled into the yard and he pulled in right behind me pulling a gooseneck trailer. When i backed out to leave i hit the front of his truck breaking his right headlight and grill and putting a dent on my FS vehicle tailgate. This happened at approx. 10 am. The boneyard was crowded with CNM transport and backhoe and other materials.

Solana Beach, CA 92071

Dear Mr. Tosdal:

This letter acknowledges receipt of the claims submitted on behalf of your clients for property damage resulting from the 2011 Las Conchas Fire that occurred on the Santa Fe National Forest.

Claims asserting negligence on the part of the government fall under the Federal Tort Claims Act (FTCA), a law authorizing the government to compensate private citizens for personal injuries and property damage. The Act authorizes federal agencies to pay private citizens for these types of damages, if, the damages were caused by the negligence of federal employees while carrying out their government duties.

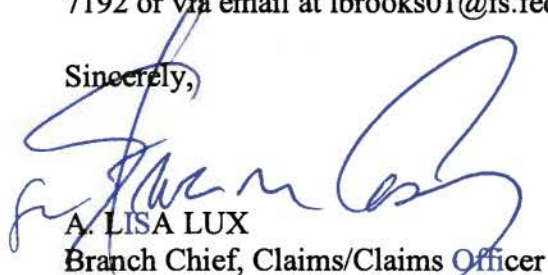

As an agency, the Forest Service does not have the authority to settle tort claims and is required to refer them to the U.S. Department of Agriculture, Office of the General Counsel (OGC) for determination.

Our office is currently reviewing the claims; gathering agency regulations, policy, and procedure applicable to the incident; documenting the agency's actions in the matter; and formulating a recommendation for the OGC.

During our initial review of the claims, we were unable to locate documentation, signed by your clients, designating your firm as their legal representative. Please send this documentation to the address indicated on the letterhead. Once we have received this information, we will continue our review of the claims.

Should you have further questions regarding this claim, contact Loredia Brooks at (505) 563-7192 or via email at [lbrooks01@fs.fed.us](mailto:lbrooks01@fs.fed.us).

Sincerely,

A. LISA LUX  
Branch Chief, Claims/Claims Officer

## INSTRUCTIONS

Claims presented under the Federal Tort Claims Act should be submitted directly to the "appropriate Federal agency" whose employee(s) was involved in the incident. If the incident involves more than one claimant, each claimant should submit a separate claim form.

Complete all items - Insert the word NONE where applicable.

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE, AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY

Failure to completely execute this form or to supply the requested material within two years from the date the claim accrued may render your claim invalid. A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.

If instruction is needed in completing this form, the agency listed in item #1 on the reverse side may be contacted. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplementing regulations. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory to the Government is submitted with the claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of the claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file for both personal injury and property damage, the amount for each must be shown in item number 12 of this form.

DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO HAVE OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.

The amount claimed should be substantiated by competent evidence as follows:

(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of the injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.

(b) In support of claims for damage to property, which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damaged, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to specify a sum certain will render your claim invalid and may result in forfeiture of your rights.

## PRIVACY ACT NOTICE

This Notice is provided in accordance with the Privacy Act, 5 U.S.C. 552a(e)(3), and concerns the information requested in the letter to which this Notice is attached.

A. **Authority:** The requested information is solicited pursuant to one or more of the following: 5 U.S.C. 301, 28 U.S.C. 501 et seq., 28 U.S.C. 2671 et seq., 28 C.F.R. Part 14.

B. **Principal Purpose:** The information requested is to be used in evaluating claims.

C. **Routine Use:** See the Notices of Systems of Records for the agency to whom you are submitting this form for this information.

D. **Effect of Failure to Respond:** Disclosure is voluntary. However, failure to supply the requested information or to execute the form may render your claim "invalid."

## INSTRUCTIONS

Claims presented under Federal Tort Claims Act should be submitted directly to the "appropriate Federal agency" whose employee(s) was involved in the incident. If the incident involved more than one claimant, each claimant should submit a separate claim form.

Complete all items - Insert the word NONE where applicable.

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE, AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY.

DAMAGES IN A SUM CERTAIN FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE PRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN TWO YEARS AFTER THE CLAIM ACCRUES.

Failure to completely execute this form to supply the requested material within two years from the date the claim accrued may render your claim invalid. A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.

If instruction is needed in completing this form, the agency listed in item #1 on the reverse side may be contacted. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplementing regulations. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory for the Government is submitted with the claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claims on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file for both personal injury and property damage, the amount for each must be shown in item #12 of this form.

The amount claimed should be substantiated by competent evidence as follows:

(a) In support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expensed actually incurred.

(b) In support of claims for damage to property, which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damage, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to specify a sum certain will render your claim invalid and may result in forfeiture of your rights.

(b)(6)

Good afternoon, I received a message that you called today 5/4/2015. I am the claims examiner working on this claim involving your insured (b)(6) claim # 15-1704840. I am in the process of generating a letter to go out to you this week. This incident involves two vehicles and a forest service vehicle. Per Departmental policy all claims that arise from a single occurrence will not be adjudicated until the full extent of the claims on a particular incident are known, or until the two year statute of limitation expires. This claim will be held in abeyance until we receive all claims arising from this occurrence.

If you have any questions about the claims processes please don't hesitate to call or email me.  
Thank you

(b)(6)  
Subject: Claim for Copyright Infringement, \$1,800.00; June 16, 2014; Southwestern Region, Santa Fe NF, Santa Fe, New Mexico

Dear (b)(6)

The claim you filed for copyright infringement occurring June 16, 2014 has been approved for payment in the amount of \$340.00. This amount represents the amount of \$20.00 per photo and 17 freshwater fish illustrations noted to have been added to the Region 3 Santa Fe NF website. Forest Service Region 3 requested additional documentation providing evidence of when the incident occurred and an explanation justifying the claimed amount of \$1800.00. You have not provided the requested documentation. Enclosed is the *Voucher for Payment* for your claim. We ask that you please complete the following:

1. Please verify that your mailing address in Block 3 is correct.
2. Payments made by the Federal Government are to include the payee's Taxpayer Identification Number/Social Security Number. Please provide your Social Security Number in Block 5 to allow for this payment to be made.
3. Please sign and date the Voucher in Block 6.

Upon your completion of the above, please send the completed *Voucher for Payment* to the attention of Kenneth Mashke at 101B Sun Avenue NE; Albuquerque, NM 87109. Payment will be made by the appropriate Forest Service personnel following our receipt of the executed *Voucher for Payment*.

Please contact Kenneth Mashke at 505-563-7605 if you have any questions regarding the voucher. Please contact me if you have any questions about the decision.

If you believe this decision is incorrect, you are entitled to address a written request to me for reconsideration of the determination of this claim. This request must include new information not known to you at the time you filed your original claim. In the alternative, you may file suit in the appropriate Federal District Court not later than six months from the date of this letter, which is the date shown above.

Thank you for your cooperation.

Sincerely,

Patricia Leigh Disert

Dear (b)(6)

We received your Standard Form 95 (SF-95), Claim for Damage, Injury, or Death. Your claim will be processed under the Federal Tort Claims Act (FTCA). As an agency, the Forest Service does not have authority to settle Tort claims and is required to refer them to the USDA Office of the General Counsel (OGC) for determination. It is our responsibility to process claims for transmittal to the OGC. However, before we can do so, we are returning a copy of your SF-95 and are requesting the following documentation and information:

- Block 6 - Date and Day of Accident: Claims must be filed within two years of the date of incident. Please provide dates (month, day, and year) of when the claimed copyright infringement occurred.
- Block 12d - Total: Your total sum certain of \$1,800.00 dollars requires further supporting documentation. For example, a detailed itemization as to how you computed your total of \$1,800.00 dollars.

**This is our second request for this information.** Submit the above requested information to the attention of Ken Mashke at the address shown above, or fax it to 1-866-341-1541.

If you have any questions, you may contact Ken Mashke at (505) 563-7605.

Dear [redacted]

Enclosed please find the SF-95, *Claim for Damage, Injury, or Death* (SF-95) for filing a tort claim against the Forest Service. It must be completed and returned to us before your claim can be processed. Your claim will be processed under the Federal Tort Claims Act (FTCA). Please follow the instructions on the reverse of the SF-95 in filing your claim.

- Please **note that all parties listed as owners of the property must be identified as claimants and must sign the claim in the "signature of claimant" block.** Please provide proof of ownership of the copyrighted drawings.
- Please provide supporting documentation substantiating your claim amount, as the Forest Service requires submission of documentation with each claim presented to the agency.
- FTCA requires that a claim be filed for a specific total amount. Please complete Block 12d.
- FTCA also requires that an agency receive proper notification of a claim to include the description of the incident giving rise to the claim in sufficient detail to allow the agency to identify and investigate it. Please complete Blocks 6 through 8.
- Please provide any other evidence or information which may have a bearing on the responsibility of the Forest Service for the damages claimed, to include any investigation reports surrounding the incident.

Please mail the completed form, with supporting documentation, to the attention of the Claims Branch at the address above. You have two years from the date of the incident to submit your claim. Upon our receipt of the above information and completion of our claims file, we will review and promptly refer the claim to the Office of the General Counsel for further determination. Should you have questions about the claims process, please contact Patricia Gurule at 505-563-7324 or by email to [pgurule@fs.fed.us](mailto:pgurule@fs.fed.us).

## Lake Fishing: Lake Katherine

When to Fish: summer, fall (check snow level conditions)

What to Catch: rainbow trout, cutthroat trout

How to get there: Winsor Ridge Trail to Skyline Trail 251 from Cowles; or the Winsor Trail from Aspen Basin

**Pertinent Information:** Camp responsibly and practice Leave No Trace ethics, plant life is disappearing due to its popularity. It's a rugged hike in, drink plenty of water and be prepared for dangerous weather; Lake Katherine is the largest and deepest lake in the Pecos Wilderness.

# PRIVACY ACT NOTICE

This Notice is provided in accordance with the Privacy Act, 5 U.S.C. 552a(e)(3), and concerns the information requested in the letter to which this Notice is attached.

A. *Authority:* The requested information is solicited pursuant to one or more of the following: 5 U.S.C. 301, 28 U.S.C. 501 et seq., 28 U.S.C. 2671 et seq., 28 C.F.R. Part 14.

B. *Principal Purpose:* The information requested is to be used in evaluating claims.  
C. *Routine Use:* See the Notices of Systems of Records for the agency to whom you are submitting this form for this information.

D. *Effect of Failure to Respond:* Disclosure is voluntary. However, failure to supply the requested information or to execute the form may render your claim "invalid".

## INSTRUCTIONS

Complete all items - Insert the word **NONE** where applicable

A CLAIM SHALL BE DEEMED TO HAVE BEEN PRESENTED WHEN A FEDERAL AGENCY RECEIVES FROM A CLAIMANT, HIS DULY AUTHORIZED AGENT, OR LEGAL REPRESENTATIVE AN EXECUTED STANDARD FORM 95 OR OTHER WRITTEN NOTIFICATION OF AN INCIDENT, ACCOMPANIED BY A CLAIM FOR MONEY DAMAGES IN A **SUM CERTAIN** FOR INJURY TO OR LOSS OF PROPERTY, PERSONAL INJURY, OR DEATH ALLEGED TO HAVE OCCURRED BY REASON OF THE INCIDENT. THE CLAIM MUST BE REPRESENTED TO THE APPROPRIATE FEDERAL AGENCY WITHIN **TWO YEARS** AFTER THE CLAIM ACCRUES.

Any instructions or information necessary in the preparation of your claim will be furnished, upon request, by the office indicated in item #1 on the reverse side. Complete regulations pertaining to claims asserted under the Federal Tort Claims Act can be found in Title 28, Code of Federal Regulations, Part 14. Many agencies have published supplemental regulations also. If more than one agency is involved, please state each agency.

The claim may be filed by a duly authorized agent or other legal representative, provided evidence satisfactory to the Government is submitted with said claim establishing express authority to act for the claimant. A claim presented by an agent or legal representative must be presented in the name of the claimant. If the claim is signed by the agent or legal representative, it must show the title or legal capacity of the person signing and be accompanied by evidence of his/her authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian or other representative.

If claimant intends to file claim for both personal injury and property damage, claim for both must be shown in item 12 of this form.

The amount claimed should be substantiated by competent evidence as follows:

(a) in support of the claim for personal injury or death, the claimant should submit a written report by the attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization, or incapacitation, attaching itemized bills for medical, hospital, or burial expenses actually incurred.

(b) In support of claims for damage to property which has been or can be economically repaired, the claimant should submit at least two itemized signed statements or estimates by reliable, disinterested concerns, or, if payment has been made, the itemized signed receipts evidencing payment.

(c) In support of claims for damage to property which is not economically repairable, or if the property is lost or destroyed, the claimant should submit statements as to the original cost of the property, the date of purchase, and the value of the property, both before and after the accident. Such statements should be by disinterested competent persons, preferably reputable dealers or officials familiar with the type of property damaged, or by two or more competitive bidders, and should be certified as being just and correct.

(d) Failure to completely execute this form or to supply the requested material within two years from the date the allegations accrued may render your claim "invalid".

A claim is deemed presented when it is received by the appropriate agency, not when it is mailed.

**Failure to specify a sum certain will result in invalid presentation of your claim and may result in forfeiture of your rights.**

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to

Director, Torts Branch

**Subject:** Your Phone Call to the ASC Contact Center

Good morning Donna. I received your phone call record (PeopleSoft Case # (b)(6)) yesterday after I had left. OGC is correct in directing you to our office. Please have this individual call the ASC, 1-877-372-7248 and ask to be directed to the Claims staff. The Contact Center will transfer the call to us. We will get the name and address of the claimant and send them a claim form, the SF-95 and ask that the claim form be completed in its entirety and attach any supporting documentation to substantiate and prove the claim. We will put together our case file and forward to the OGC for adjudication.

I do ask that you complete the attached form, FS-6500-209, Notification of a Potential Claim Against the Government and work with the Santa Fe NF's Unit Claims Liaison, Diana Schultz, in returning the notification back to FS-asclclaims. We will start a file in our tracking database. Should you have any questions, please reply to this email message. I will close out your phone call record, Case (b)(6). Should you have any further questions, please reply to this email. Thank you!! Pat

**8. Detailed Description of****Incident** (When, Where, Why, and How.  
Please attach additional sheets if needed)

3/25/14 - [redacted] contacted [redacted] to let her know that 16 of his copyrighted illustrations were posted on Santa Fe National Forest's website without his permission. Website visitors are directed to [redacted] for further assistance.

3/27/14 - [redacted] forwarded his message to [redacted] Assistant PAO. [redacted] briefed [redacted] about the concern and said that he would take care of it.

5/2/14 - [redacted] contacted [redacted] again to say that he had not heard back from anyone. [redacted] forwarded his message to [redacted]

5/5/14 - [redacted] forwarded his message to [redacted] [redacted] called [redacted] He explained that 16 copyrighted illustrations from his book "Fishes of New Mexico" had been posted on Santa Fe National Forest's website without his permission. The specific illustrations were of brown trout, rainbow trout, white sucker, rio grande cutthroat, bluegill male, brook trout, snake river cutthroat trout, largemouth bass, white crappie, walleye, green sunfish, channel catfish, common carp, smallmouth bass, flathead chub, and river carpsucker. He asked for the images to be removed immediately and requested payment for the time that his photos had been used. He sent page shots of his illustrations. [redacted] asked what amount of compensation he was requesting. He requested \$20 per photo for each year that they had been posted.

[redacted] contacted the RO public affairs staff to ask for guidance regarding the request for compensation and help removing the images from the website.

5/7/14 - [redacted] (R3 Webmaster) removed all of the images from the website. She determined that the images had been posted in May and June of 2011. We do not know who posted the images. Regional PAO staff contacted OGC for guidance regarding the request for compensation.

5/19/14 - [redacted] contacted [redacted] to say that he had not heard back from anyone. [redacted] contacted R3 PAO to ask if they had heard back from OGC. PAO said, "Since he is asking about compensation, you need to send him an email stating that is something for him to decide what his next steps would be. Also we do not actually know whether a copyright infringement falls under tort claims... we really cannot advise someone what their legal rights are. If they feel they have a claim they should consult their own counsel about pursuit of that claim." [redacted] consulted with [redacted]

(b)(6) (b)(6) (b)(6)

5/20/2014 - [redacted] advised [redacted] to not provide any advice to an outside entity on their legal rights pertaining to the pictures. [redacted] suggested referring [redacted] to an ASC claims specialist. (b)(6)

5/21/2014 - [redacted] contacted ASC to initiate B&F Case # [redacted] (b)(6)

5/22/14 - [redacted] contacted [redacted] to let him know that she had no authority to provide compensation, but that his case was referred to ASC. She requested his contact information to include in the FS 6500-209. He provided the information that was requested.

Ms. Schultz,

We have received a claim from [REDACTED] in the amount of \$1,800.00 dollars due to unauthorized use of copyright protected fish illustrations that were posted on the USFS website. I will need a copy of any reports, photos, or any other information relevant to this claim/incident. If this claim is approved for payment, a job-code/shorthand code/WBS Element will need to be established in FMMI for payment.

To: Kenneth D. Paur, Deputy Regional Attorney  
USDA, Office of the General Counsel

Enclosed is a tort claim filed relative to copyright infringement involving 17 freshwater fish illustrations that were posted on the Region 3, Santa Fe NF, world-wide-web (www) internet site. The claim in the amount of \$1,800.00 was submitted by (b)(6) illustrator and copyright owner of the freshwater fish illustrations. (b)(6) reported his illustrations were available to view on the Santa Fe NF internet site from 2011 to 2014. The Albuquerque Service Center (ASC) received the duly filed claim on June 16, 2014.

(b)(6)  
(b)(6)  
(b)(6)  
(b)(6)  
(b)(6)  
**BASIS OF CLAIM:** The claimant alleges that 17 of his freshwater fish illustrations were posted on the Region 3, Santa Fe NF, w.w.w. internet site from 2011 to 2014 without his authorization. (b)(6) initially reported the incident to FS employee, Region 3 Customer Service Representative, (b)(6) on March 25, 2014. On May 07, 2014, FS employee, Region 3 Internet Web Manager, (b)(6) removed all freshwater fish illustrations related to (b)(6) from the Santa Fe NF web site.

(b)(6)  
(b)(6)  
(b)(6) submitted 19 pages of his freshwater fish illustrations that he downloaded from the Region 3, Santa Fe NF web site in conjunction with his claim. In addition, (b)(6) provided a copy of the Certificate of Copyright Registration showing proof of ownership for illustrations of fish included within the book titled "Fishes of the Central United States."

(b)(6)  
(b)(6)  
We mailed two letters to (b)(6) requesting further information in support of his claim, to include; date and day the incident occurred and further documentation supporting his claim for \$1,800.00. As of this date, (b)(6) has not provided the requested documentation.

(b)(6)  
(b)(6)  
We do not anticipate any additional claims relative to this incident as the claimant did not file a claim with any other legal representatives.

(b)(6)  
(b)(6)  
**STATEMENT OF FACTS:** The Standard Form 95, *Claim For Damage, Injury, or Death* (SF-95) submitted by (b)(6) indicates 17 of his copyright protected freshwater fish illustrations were posted on the Region 3, Santa Fe NF, w.w.w. internet site from 2011 to 2014 without his permission. (b)(6) provided 19 pages of downloaded illustrations, which show freshwater fish known to be copyright protected by (b)(6) that were available for viewing on the Santa Fe NF web site.

(b)(6)  
According to the FS-6500-209, *Notification of Incident, Potential Claim Against The Government*, submitted on May 22, 2014, by Region 3, Santa Fe NF Public Affairs Officer, Donna Nemeth, (b)(6) first reported the incident on March 25, 2014 to FS employee,

(b)(6) Region 3, Customer Service Representative, (b)(6) forwarded the complaint to the Region 3, Public Affairs Office, FS employees (b)(6)

(b)(6) On May 07, 2014 (b)(6) freshwater fish illustrations were removed from the Region 3, Santa Fe NF internet web site by Region 3, Internet Web Manager, (b)(6) determined the illustrations were added to the Santa Fe NF internet web site in May or June of 2011.

(b)(6) The FS-6500-209 also indicates (b)(6) requested \$20.00 per illustration for each year that the illustrations were posted on the Region 3, Santa Fe NF internet website. (b)(6)

(b)(6) No formal investigation reports were completed. However, FS employee (b)(6) submitted the FS-6500-209 which reports 17 of (b)(6) fish illustrations were available for review on the Region 3, Santa Fe NF internet web site. In addition, FS employee (b)(6) (b)(6) Region 3 Internet Web manager indicated the illustrations had been originally posted in May or June of 2011 and were removed on May 07, 2014.

(b)(6) **FOREST SERVICE RECOMMENDATION:** We believe this claim is cognizable under the Federal Tort Claims Act (FTCA) (28 U.S.C. 1346, 2401, and 2671-2680), and request your review and determination.

The Santa Fe NF Public Affairs Office had a duty to secure all necessary licenses and authorization from (b)(6) prior to adding his copyright protected fish illustrations to the Santa Fe NF internet web site. In pursuant with 22 CFR, 502.6, New Mexico, Title 1, Chapter 12, Part 10, and USDA Departmental Manual 3545-000, Information Security Awareness Rules of Behavior, the facts and circumstances indicate that our employees breached their duty to exercise due diligence when adding copyright protected illustrations to a FS internet web site in violation of federal, state, and FS policies.

22 CFR, Section 502, Part 6, Section 2, Terms of Use for Accessing Program Materials Available on Agency Web Sites states:

“(2) The requestor agrees that he or she shall secure all necessary licenses from all persons or organizations that hold a copyright in any portion of requested program materials before making any use of those program materials, except uses of program materials permitted by the copyright act of 1976 as amended.”

US New Mexico Code, Title 1, Chapter 12, Part 10, Internet/Intranet, Email, and Digital Network Usage states:

“Users shall respect the copyrights, software, licensing rules, property rights, privacy, and prerogatives of others, as in any other business dealings.”

USDA Departmental Manual on Personal Security (DM 3545-000), Information Security Awareness and Rules of Behavior, Accountability, states:

(b)(6) “comply with software licensing agreements and not violate federal copyright laws” (b)(6)

(b)(6) In addition, by letters dated August 14, 2014 and September 16, 2014, we requested (b)(6) (b)(6) provide us evidence of when the incident occurred and a detailed explanation justifying the claimed amount of \$1800.00. (b)(6) did not provide the requested documentation. (b)(6)

Therefore, we recommend payment to (b)(6) in the amount of \$340.00. (b)(6) initially requested \$20.00 per photo and 17 freshwater fish illustrations are noted as being added to the Region 3 Santa Fe NF website totaling \$340.00.

If you concur with our recommendation, please sign the enclosed form, FS-6500-215, *Voucher for Payment*, and process through your normal procedures.

Please call Ken Mashke at (505) 563-7605 if you have questions relative to this claim.

Dear [redacted]

We received your Standard Form 95 (SF-95), Claim for Damage, Injury, or Death, that you submitted for copyright infringement. As an agency, the Forest Service does not have authority to settle Tort claims and is required to refer them to the USDA Office of the General Counsel (OGC) for determination. It is our responsibility to process claims for transmittal to the OGC. However, before we can do so, we are returning a copy of your SF-95 and are requesting the following documentation and information:

- Block 6 - Date and Day of Accident: Claims must be filed within two years of the date of incident. Please provide dates (month, day, and year) of when the claimed copyright infringement occurred.
- Block 12d - Total: Your total sum certain of \$1,800.00 dollars requires further supporting documentation. For example, a detailed itemization as to how you computed your total of \$1,800.00 dollars.

Submit the above requested information as soon as possible, to the attention of Ken Mashke at the address shown above, or fax it to 1-866-341-1541.

If you have any questions, please contact Ken Mashke at (505) 563-7605.

Sincerely,

*Amy Reason*

Dear [REDACTED]

Enclosed please find the SF-95, *Claim for Damage, Injury, or Death* (SF-95) for filing a tort claim against the Forest Service. It must be completed and returned to us before your claim can be processed. Your claim will be processed under the Federal Tort Claims Act (FTCA). Please follow the instructions on the reverse of the SF-95 in filing your claim.

- Please note that all parties listed as owners of the property must be identified as claimants and must sign the claim in the "signature of claimant" block. Please provide proof of ownership of the copyrighted drawings.
- Please provide supporting documentation substantiating your claim amount, as the Forest Service requires submission of documentation with each claim presented to the agency.
- FTCA requires that a claim be filed for a specific total amount. Please complete Block 12d.
- FTCA also requires that an agency receive proper notification of a claim to include the description of the incident giving rise to the claim in sufficient detail to allow the agency to identify and investigate it. Please complete Blocks 6 through 8.
- Please provide any other evidence or information which may have a bearing on the responsibility of the Forest Service for the damages claimed, to include any investigation reports surrounding the incident.

Please mail the completed form, with supporting documentation, to the attention of the Claims Branch at the address above. You have two years from the date of the incident to submit your claim. Upon our receipt of the above information and completion of our claims file, we will review and promptly refer the claim to the Office of the General Counsel for further determination. Should you have questions about the claims process, please contact Patricia Gurule at 505-563-7324 or by email to [pgurule@fs.fed.us](mailto:pgurule@fs.fed.us).

Sincerely,

# TRUCHAS PEAKS PLACE

Truchas Peaks Place is surrounded by National Forest lands, making it the perfect base for year-round exploration of New Mexico's north central region.

Here you can fish, hike, go rafting, ski or snowboard, mountain bike, ride horses, visit wineries or artists' studios, or simply read, rest, or work in our cozy library.

## Popular activities

### Trail hiking

Truchas Peaks Place is surrounded by **Carson National Forest**, which has some 1.5 million acres to explore, including 13,161-ft Wheeler Peak, New Mexico's highest. We highly recommend the area around Santa Barbara Canyon for its well-maintained trails through striking scenery. A closer option is the 6.4-mile trail system at **Santa Cruz Lake**, 10 miles from Truchas.

### Photography

Professional photographers and hobbyists alike journey to our part of New Mexico to feast their camera lenses on the stunning landscape, architecture, flora, and wildlife.

## Arts and crafts

New Mexico is a mecca for art lovers of all stripes, offering everything from big-city art museums to village galleries and studios – like our own Truchas – that might feature contemporary paintings, sculpture, jewelry, Native American art, ceramics, traditional wood carving and weaving, etc.

## Fishing

An abundance of streams and cool summer temperatures combine to make our region an angler's paradise. Santa Barbara Canyon, 25 miles from Truchas, is famous for its rich trout population (truchas is Spanish for trout).

## Cultural events

Throughout the year, exciting fiestas and markets are held in our region. For example the Santa Fe Film Festival, the Santa Fe Wine & Chile Fiesta, and the **Santa Fe Indian Market**, held every year in August, an event that showcases 1,200 Native American artists and attracts more than 100,000 visitors each year. Another must for art-and-culture enthusiasts is the **Santa Fe Spanish Market**, held twice annually in July and December by the Spanish Colonial Arts Society, and featuring traditional Hispanic art forms and artists.

## Culinary delights

Vineyards, orchards, seasonal farmers' markets, 5-star restaurants, food festivals, and of course our state's famous green chile cheeseburger – there's something here to satiate any food lover. We'll be happy to provide you with a list of fine local restaurants during your stay here.

## Vistas and historic sites

Spectacular scenery and a great number of cultural and historical treasures are within easy driving distance of Truchas Peaks Place. Don't miss the view from the Rio Grande Gorge Bridge, near Taos, for example, or the U.S. Hill Turnout in the Carson National Forest. The area also contains many historic churches, with construction dating back to the 1700s. Examples include Old Holy Rosary in Truchas, San Jose de Gracia in Las Trampas, San Francisco de Asis in Ranchos de Taos, and the Santuario de Chimayo in Chimayo.

## Winter sports

We are within easy reach of Sipapu Ski Resort, Taos Ski Valley, Ski Santa Fe, Angel Fire Resort, Red River, and other resorts – but give you a place away from the tourist crowds to retreat to in the evenings. **Sipapu**, open year-round and home to the longest ski season in New Mexico, is less than an hour's drive from Truchas.

**Truchas Peak** (more precisely, **South Truchas Peak**) is the second highest peak in the [U.S. State of New Mexico](#) behind [Wheeler Peak](#). It is in the [Sangre de Cristo Mountains](#) 26 miles (42 km) northeast of [Santa Fe](#). It lies within the [Pecos Wilderness](#), part of the [Santa Fe National Forest](#). (The north end of the mountain borders on the [Carson National Forest](#).) The name of the peak is Spanish for "trout" (plural). It is the highest point in both [Rio Arriba](#) and [Mora](#) counties.

The entire mountain is a small north-south trending [massif](#) with four identifiable summits, **North Truchas Peak**, **Middle Truchas Peak**, "**Medio Truchas Peak**" (unofficial name),<sup>[3]</sup> and South Truchas Peak, the highest. Of the three subsidiary summits, only North Truchas Peak (13,029 feet or 3,971 meters) has enough [topographic prominence](#) (about 624 feet or 190 meters) to be considered an independent peak.<sup>[4]</sup>

The **Truchas Peaks** lie on the [divide](#) between the [Rio Grande](#) and the [Pecos River](#). They are drained on the west by the Rio Medio, the Rio Quemado, and the Rio de las Trampas; on the northeast by the Rio Santa Barbara; and on the southeast by small creeks that quickly run into the upper reaches of the Pecos River. The massif also connects to numerous other high peaks in the region, many via the Santa Barbara Divide, a major east-west high ridge which separates the Pecos watershed on the south from the Santa Barbara watershed to the north.

The Truchas group has a true wilderness character, as it is difficult to access the peaks within a single day. Many trails access the slopes of the peaks, most notably the Skyline Trail (Trail number 251), which traverses the eastern slopes at elevation around 12,000 feet (3,660 m) and accesses the **Truchas Lakes**, a set of small lakes in a [cirque](#) below the south side of North Truchas Peak.
